Women's National Agricultural and
Horticultural Association

1921

Attention Southern Customers.

We would like to call attention to the fact that our springs are very late (one of the trying features of operating a Nursery in a cold climate) and it is impossible for us to make early shipments, as our stock is almost entirely field grown. It is usually along in May before vegetation has made enough start to permit us to commence digging.

We beg your indulgence, for your plants will quickly make up lost time when moved to a warmer situation.

WE wish to express our appreciation of the interest shown by garden lovers in the pioneer work we are doing in this country. It is a good deal of an undertaking to bring to the public a collection of choice varieties which are little known by the majority of gardeners. But the interest is great and the desire to learn very sincere, which encourages us to forge ahead and give the people in our own America the opportunity to add to their gardens the choicest of the European gems. And as they become better known, the only wonder will be that we have deprived ourselves of the pleasure of growing them for so long a time.

We specialize on the desirable new and rare varieties as they make their appearance abroad or in this country and our plants are strong, vigorous stock and, grown in our trying climate, we can assure their hardiness anywhere.

We are carrying a large stock of the choicest rock plants and send out stock that is sturdy and with **good roots,** the prime requisite with any plant. But please remember they are not hollyhocks and must of necessity be small, when their full stature is often only two to four inches.

We guarantee our plants to be true to name and description, but it is obviously impossible to guarantee they will grow after leaving our hands. We are always glad, however, to give all the assistance possible to our patrons by giving them any information desired as to the special requirements of any plant.

Our stock is all FIELD GROWN, ensuring the strongest, healthiest constitution possible; the forerunner of certain success when transplanted to your garden. We do not advocate pot grown plants for anything but the greenhouse.

We will ship all plants by Express, customers to pay the charges, unless otherwise requested. If desiring shipment by PARCEL POST, add 10 per cent extra for points East of the Mississippi; 20 per cent extra for points West of the Mississippi.

We are anxious to give all of our customers the best service possible, both as to delivery and quality of stock, and always ready to consider any reasonable request.

We will replace any goods lost or damaged in transit but report of same must be made immediately.

TERMS—Cash with order, unless it is desired to open an account with us. In that case, please send financial references.

No account opened for less than an initial order of $10.00.

Not less than six plants of the same variety supplied at the dozen rate.

Rock Gardens

The object of a rock garden is to enable one to grow flowers that have their homes in the high mountains where snows are deep and summer very short. To be sure, all plants grown in the rockery are not natives of the alpine regions, but the great majority are, and while the beginner is apt to feel that this is a most difficult branch of gardening, it is only necessary to begin with the many easy subjects to find it not only comparatively easy but immensely fascinating and one that opens up entirely new delights in gardening.

We cannot all, of course, have extensive rock gardens; nor is it necessary, for a wonderful collection of rock plants can be grown in a small space. The most of us have a wall or bank that can be converted into a most bewitching spot with the aid of rock plants.

As a rule, alpine plants are so miniature that they at once appeal to the protective instinct and while they appear so delicate as to make one feel they must be most difficult to grow, many of them are of as easy culture as a rose. As to the more difficult kinds, one need not attempt these until their experience grows a little and it is always an incentive to greater effort to know there are delights just beyond us.

It is not necessary to have expense in order to have a delightful rock garden but rather that we turn our attention to the soil and site for the treasures we wish to possess. It must be borne in mind that rock plants are very deep rooting and so need plenty of good soil and extensive root runs, under rocks. Also that in most of cases the surface needs to be kept covered with small stones and that in all cases care should be taken that the rain supply is not cut off by overhanging rocks.

We have not listed any plants too difficult for the ordinary gardener to grow, as we realize we have few specialists on alpine plants in this country at the present time but as our garden lovers become acquainted with the charms of alpine plants, we prophecy there will be many such enthusiasts.

We will always be glad to give lists of plants for special places, free of charge, provided we have the requests between November 1st and March 1st.

	Each.	Doz.

ACHILLEA—Milfoil or Yarrow

Hardy Perennial

Well known border plants, suitable for dry and sunny places.

A. **ageratifolia**—Tufted growth with silvery leaves and white flowers. Blooms in May and June. Fine for rockery. 3 in. ..... $ .50 $ 5.00

A. **Clavennea**—Compact tufts of silvery foliage with a profusion of white flowers from July to Sept. Rockery ..... .50 5.00

A. **ptarmica "Boule de Neige"**—An improved variety of this useful plant, having very double flowers of a purer white than the type ..... $ .25 $ 2.50

A. **ptarmica "The Pearl"**—Double pure white flowers ..... .25 2.50

ACONITUM—Monkshood

Hardy Perennial

Aconitums are very stately and beautiful plants for the hardy border. Exceedingly valuable on account of their late bloom as well as for planting in shade, as they will flourish even under trees. Thrive best in very rich soil and prefer not to be disturbed when once established.

A. **Fischeri**—Semi-dwarf variety with large, pale blue flowers. Commences to bloom in September ..... $ .35 $ 3.50

A. **Sparks' Variety**—Very dark blue. Blooms early ..... .35 3.50

A. **Wilsoni**—Very handsome variety introduced from China by Mr. Wilson. Large, violet-blue flowers from September until frost ..... .50 5.00

ÆTHIONEMA—Lebanon Candytuft

Hardy Perennial

Near relatives of the Candytlft, these hardy little rock plants are of the most fascinating character. The foliage of most of them is a beautiful, glaucous blue; stems woody and when covered with their heads of pink or white blossoms, make a picture not to be forgotten.

They are almost shrubby in habit and are improved by a slight cutting back after blooming. Stony, sandy loam is suitable for them and a warm, sunny position. Given these conditions, they will grow more beautiful every year.

	Each.	Doz.
A. **armenum**—A gem of only three or four inches high, blue-gray leaves and charming pink blossoms in close heads	$ .50	$ 5.00
A. **armenum var. Warleyensis—(New)**—A fine hybrid with brilliant rose colored flowers and glaucous blue foliage	.75	7.50
A. **grandiflorum**—The giant of the race, reaching a height of 12 inches, with large and beautiful heads of rose colored bloom	.75	7.50
A. **pulchellum**—Another beauty with very glaucous leaves and heads of rosy pink flowers. About six inches high. One of the best	.50	5.00
A. **stylosum**—A treasure from Lebanon, only two or three inches high. Foliage blue and large, rounded heads of clear pink blossoms	.75	7.50

ALYSSUM—Mad Wort

Hardy Perennial

Beautiful, showy plants for rock work, bedding, etc. They like a sunny position and well drained soil.

A. **argenteum**—Dense growth. Leaves silvery beneath, flowers yellow in clustered heads, all summer. About 15 in.	.50	5.00
A. **orientale**—Very showy variety, growing about a foot high and bearing large corymbs of bright yellow flowers	.25	2.50
A. **saxatile citrinum**—Very attractive variety with paler yellow flowers than the type	.30	3.00
A. **"Silver Queen"**—A very beautiful variety from England. Masses of pale yellow blooms	.50	5.00
A. **serpyllifolium**—Very dwarf, 4 inches to 5 inches high, with racemes of pale yellow flowers and rough, hoary leaves. Charming for the rock garden. Very rare	.50	5.00
A. **spinosum**—A woody stemmed plant with silvery leaves and numerous small, yellow blossoms. About 6 in. high and very branching habit. A gem for the rock garden	.50	5.00
A. **spinosum roseum**—A very choice rose colored form of the above. Very scarce	.75	7.50

	Each.	Doz.

ANCHUSA—Alkanet

Hardy Perennial

Anchusas grow readily in ordinary soil in sunny situations but quickly respond to good feeding. Their large hairy leaves and tall spikes of beautiful blue flowers make a fine background in borders. Physostegia is very effective planted in front of them, as the latter takes their place when through flowering.

A. **italica—"Dropmore Variety"**—A beautiful variety of the Italian Alkanet with numerous flowers of deepest gentian blue. In good soil will reach a height of six to seven feet with numerous side branches, making a most imposing plant. Requires staking	.35	3.50
A. **italica—"Opal"**—A charming blue variety. Identical with above except color	.35	3.50
A. **myosotidiflora**—A new and very charming variety of Anchusa, its dwarf habit making it suitable either for the rockery or front of the border. Quantities of bright blue flowers in May and June	.40	4.00

ANTHEMIS—Marguerite

Hardy Perennial

A. **tinctoria**—A very desirable plant for the hardy garden with pyrethrum-like foliage and a profusion of golden yellow flowers all summer. Fine for cutting	.25	2.50
A. **montana**—A white flowering variety of the above	.25	2.50

ANTIRRHINUM—Snapdragon

Hardy Perennial

The ordinary snapdragons are of too coarse growth to be admitted to the rock garden, but there are two or three species that are very charming in June. A dry, sunny spot and well drained soil are essential to success.

A. **Asarina**—A trailing plant from the south of France with very attractive foliage and creamy white flowers	$ .35	$ 3.50
A. **glutinosum hybridum**—A charming strain of lovely colors, very valuable for the rock garden	.35	3.50
A. **sempervirens**—A beautiful trailing plant for the rock garden. Flowers white with purple blotch	.35	3.50

	Each.	Doz.

ANTHYLLIS—Vetch

Hardy Perennial

A. **montana**—Somewhat shrubby plant about one foot high with silky foliage and dense heads of pink blossoms. Very easy culture and much prized for the rock garden ..... $ .50 $ 5.00

AQUILEGIA—Columbine

Hardy Perennial

The Aquilegias need no praise; they appeal to everyone by their grace and the beauty of their flowers, the colors of the new hybrids being particularly handsome. All the Columbines may be used on the rockery, but it is better to leave the larger species and their varieties to the border, although some of them are very attractive when perched on some high spot.

They thrive in shade or sun but prefer a rich, well-drained soil in partially shaded position. If not allowed to go to seed and not covered too heavily in winter, they will flourish for years and will not change their colors. Coal ashes put around the crown in the fall will help to prevent their decay.

A. **alpina**—A charming species from Switzerland and best suited to the rockery. Beautiful blue and white flowers. Very rare ..... $ .50 $ 5.00

A. cærulea—True—Lovely white and blue flowers ..... .30 3.00

A. cærulea—"Mrs. Nicholls"—A fine novelty. The flowers are long spurred and immense size. Beautiful coloring of Stuartii, with somewhat better constitution .... .50 5.00

A. **flabellata nana**—Very dwarf white variety. The first to bloom in spring. Fine for rockery or edging ..... .30 3.00

A. **"Silver Queen"**—New. A very beautiful variety raised in England. Large, elegant flowers with long spurs, white faintly tinged rosy sapphire; 2 ft ..... .50 5.00

A. **"White Lady"**—A beautiful variety of cærulea with white flowers and graceful foliage; 2 ft ..... .50 5.00

A. **canadensis**—The native bright red and yellow columbine ..... .25 2.50

A. **chrysantha**—Bright yellow, long spurred flowers .... .25 2.50

	Each.	Doz.
A. **oxysepala**—Dwarf and early flowering. Very attractive with flowers of blue and white with yellow centers. Very new	.50	5.00
A. **Stuartii**—A grand variety of glandulosa. Flowers very large, rich blue with white cup and golden anthers. Gem for the rockery	.50	5.00
A. **Viridiflora**—Rare and interesting species with greenish flowers. Very fragrant	.50	5.00
A. **Long spurred Hybrids**—Selected from the finest long-spurred varieties obtainable in Europe; strains that have received the highest awards at the Royal Horticultural Shows in London. They range in color from cream white to delicate lavender, blue, delicate pink, rose, deep purple and pure yellow; 2 ft	.35	3.50

ARABIS—Rock Cress

Hardy Perennial

One of the most common of rock plants. Ordinary soil is suitable but they must have a sunny position. We offer the best of the many varieties.

A. **albida—A** very vigorous rock-cress with grey leaves and countless spikes of white flowers nearly the whole summer	.25	2.50
A. **alpina superba**—Large, pure white flowers. Fine for edging and for rockery	.25	2.50
A. **arenosa**—An attractive variety with white flowers in heads borne on slender stems of 8 to 10 inches	.25	2.50
A. **aubrietioides**—A beautiful variety of rock-cress, bearing a profusion of delicate pink uowers	.50	5.00
A. **caucasica**—A cream colored alpina	.30	3.00
A. **rosea**—Very dwarf species with an abundance of rose colored flowers	.35	3.50

ARENARIA—Sand Wort

Hardy Perennial

As their name implies, these plants do best in sand and full sun. Beautiful and of easy culture, they are most at home in the rock garden.

	Each.	Doz.
A. **Balerica**—Creeping plant with dark green foliage and white blossoms. A gem for cool, shady places in the rockery	.25	2.50
A. **cæspitosa**—A close tufted plant of mossy growth, studded with white flowers all summer. Charming for the rock garden	$ .20	$ 2.00
A. **gracilis**—Very new and as its name indicates, of slender, graceful growth. Fine rock garden plant	.25	2.50
A. **montana**—Creeping variety, forming mounds of green which in early summer are covered with large white blossoms. Indispensable for the rockery	.25	2.50

ARMERIA—Sea Pink or Thrift

Hardy Perennial

Small perennials, with leaves in rosettes close to the ground. Very easy culture, preferring a sunny position in light soil.

A. **caespitosa vera**—Very rare. Spiny leaves, forming very compact rosettes. Pink flowers. Rockery	.50	5.00
A. **cephalotes**—Long, narrow foliage with heads of bloom of light rose color on long stems. Very attractive	.25	2.50
A. **cephalotes rubra**—Flowers a deeper pink	.25	2.50

ARTEMESIA—Lactiflora

Hardy Perennial

A recent introduction and a most valuable addition to the hardy border. Foliage very graceful, almost like a Spirea. Flower stems from three to four feet high, bearing panicles of very fragrant white blooms | .35 | 3.50

ASTER—Dwarf Alpine

Hardy Perennial

A. **alpinus**—Very effective plants for the rock garden or edge of hardy border. Bear large, showy purple flowers in May and June	.35	3.50
A. **alpinus himalaicus**—More dwarf than the type and bearing a profusion of lilac blue flowers. Very choice	.50	5.00

	Each.	Doz.
A. **alpinus Magnificus**—Handsome variety with pure white flowers	.50	5.00
A. **subcærulea**—A very handsome dwarf aster. Tufted foliage, slightly hairy, with large, solitary flowers of pale blue with golden centers, making a most beautiful combination	.35	3.50

ASTILBE—Meadow Sweet

Hardy Perennial

Handsome border plants, especially suited to moist or half shady places. Extremely graceful and not known as well as they should be.

A. **Ceres**—Delicate rose-colored flowers with silvery sheen	.50	5.00
A. **Etna**—Beautiful rose pink blooms. Very new	.50	5.00
A. **grandis**—A grand species, growing five to six feet tall and bearing immense panicles of white flowers	.50	5.00
A. **Rubens**—A recent introduction of great beauty producing large panicles of the deepest rose colored blooms	.50	5.00
A. **Salmon Queen**—Beautiful salmon pink	.50	5.00
A. **Vesta**—Graceful plumes of lilac-rose	.50	5.00

AUBRETIA—Wall Cress

Hardy Perennial

The rock garden could ill afford to do without its wonderful masses of Aubretia that give such a rare color during April and May and which are among the most easily grown and the most showy of all rock plants. They form spreading tufts and are never seen at their best on the flat, but should be so placed that they may droop over some mound of soil or cover the face of a rock, or fall from the top of a rockery wall. A light loamy soil meets their requirements and after the flowers are over the plants should be cut back well, that the tufts may not become bare in the center. We offer the best of the new, named varieties.

A. **Bridesmaid**—Pale rosy blush	.50	5.00
A. **Cilicica**—One of the best—flowers large and freely produced. Lavender with white eye	.50	5.00

	Each.	Doz.
A. **Craven Gem**—New—Very fine deep purple	.50	5.00
A. **Fire King**—Glowing Crimson—Very fine	.50	5.00
A. **H. Marshall**—Rich deep mauve colored flowers; late	.50	5.00
A. **J. S. Baker**—Purple flowers with white eye	.50	5.00
A **Leichtlini**—Bright rose colored flowers	.50	5.00
A. **Mrs. Crosfield**—A grand purple variety with very large flowers. Earlier than most	.50	5.00
A. **Mrs. Lloyd Edwards**—A deep reddish purple	.50	5.00
A. **Perkinsii**—New—Violet blue with white eye; compact	.50	5.00
A. **Pritchard's A-1**—New—Violet flowers; compact habit; one of the finest	.50	5.00
A. **Selected Hybrids**—From fine large flowered varieties, ranging in color from rose to carmine	.35	3.50

BELLIS—Daisy

Hardy Perennial

Nearly everyone is familiar with the common hardy daisy, but the improved form of these delightful plants is a surprise to those who see them for the first time. The size of bloom has been increased until the choicer varieties are as large as small asters. Fine for edgings.

B. **Monstrosum**—A monster variety of the hardy English Daisy. New, pure white; 6 inches	.25	2.50
B. **Pink Beauty**—Deep pink, very handsome; 6 inches	.25	2.50
B. **alpinus**—Alpine Daisy—A graceful, spreading plant, growing about six inches high and covered with dainty pink and white single flowers throughout the summer and autumn	.25	2.50
B. **cærulescens**—An exceptionally dainty little plant, flowers white, tinted lilac. Requires a warm site. Fine for the rockery; 3 inches	.25	2.50

BOCCONIA—Plume Poppy

Hardy Perennial

B. **cordata**—A very handsome plant, both in foliage and flower, and fine for planting in the border or in groups in almost any position. Flowers of a creamy white, in large panicles, during July and August	.25	2.50

CAMPANULAS—Bellflowers

Hardy Perennials and Biennials

The Bellflowers are for the most part of a very elegant habit and beautiful appearance. The perennial varieties are all of great beauty, the taller ones being suitable for the border and very valuable as cut flowers, while the dwarfer sorts are well adapted for the front of borders and for rockeries. The most of the varieties are easily grown and unless otherwise specified, prefer a well-drained, rather rich sandy loam. Those adapted to rockery culture are among the choicest of perennial plants.

	Each.	Doz.
C. **abietina**—Very dwarf, tufted growth. Saucer shaped, purple flowers on long stems. Very choice. Rockery	.75	7.50
C. **alliarifolia**—Showy and choice bell-flower of pyramidal habit. The flowers are white, long tubed and hang in scores from one side of arching stems	.35	3.50
C. **barbata**—So called because of the hairs inside the blooms. It requires a well-drained soil, containing plenty of stones, and more sun than most of bell-flowers. The handsome pale blue flowers are produced from May to July, on stems about 1 ft. high	.75	7.50
C. **Burghalti**—A striking plant with long, silky flowers of a lavender blue tint	.35	3.50
C. **carpatica**—The well-known Carpathian Bellflower and suitable for the front of border and rockery. They form large compact tufts and bear a wealth of cup-shaped blossoms about 1½ inches across, of a beautiful shade of blue; 1 ft	.25	2.50
C. **carpatica alba**—The white form. Choice and a beautiful companion for the one preceding	.25	2.50
C. **carpatica "Chastity"**—Introduced by Norman Grove, the Campanula specialist. Pure white flowers, erect habit, very free flowering	.50	5.00
C. **carpatica "Meteor"**—Another of Grove's introductions and we will give his description: "A charming bellflower with broad, somewhat flattened flowers that are almost white but have an opalescent effect caused by the soft blue coloring that shows through from the back of the segments. Plant 10 inches high."	.50	5.00

	Each.	Doz.
C. **carpatica—"Selected White."** An extra large and selected variety of the Carpathian Harebell. Pure white flowers, freely produced	.35	3.50
C. **carpatica—"Riverslea."** A dwarf tufted plant, bearing large, flat, saucer-shaped flowers of a pale blue, on slender stems, about 1 ft. high	.35	3.50
C. **garganica**—A gem for the rock garden. Forms a low, spreading tuft which in June is covered with starry, light blue flowers having a white eye; exquisite hanging over a rock	.50	5.00
C. **garganica "W. H. Paine"**—Improved form of this charming Italian bellflower. Large, bright violet flowers with white center. More upright in habit than type. A striking plant	.75	7.50
C. **glomerata Dahurica**—Large heads of purple flowers. Fine for the border; 2 ft.	.30	3.00
C. **grandis**—A handsome plant with tall spikes of blue flowers	.35	3.50
C. **Grossecki**—A handsome species with large leaves, heart-shaped and coarsely toothed. Flowers all summer, violet, in long racemes.... 5 ft.	.25	2.50
C. **lactiflora grandiflora**—Very distinct. Pretty blue flowers in large heads. Flowers from July to September; 4 ft.	.50	5.00
C. **lactiflora alba magnifica**—A beautiful variety from the Imperial gardens of Petrograd, producing spikes 6 ft. high, bearing large, snowy-white flowers. New and choice. The true variety	.50	5.00
C. **latifolia**—A strong growing variety, 3 to 5 ft. high. Flowers in July, blue	.25	2.50
C. **latifolia Macrantha**—Tall and handsome species with royal purple flowers, 2 inches long, trumpet-shaped. Suitable for the border or wild garden	.25	2.50
C. **muralis**—Very dwarf plant covered with blue purple flowers in June. Fine for wall or rock garden	.50	5.00
C. **muralis bavarica**—An improved form of C. muralis with larger flowers on longer, more upright stems. Easily grown and fine for wall or rockery	.75	7.50
C. **persicæfolia—(Peach Bells)**—One of the finest border varieties, bearing large, blue, saucer-shaped flowers on long spikes, 3 ft. high. June and July	.25	2.50

	Each.	Doz.
C. **persicæfolia alba grandiflora**—A fine variety of the above, with extra large blossoms. White	.25	2.50
C. **persicæfolia Mœrheimi**—A very fine variety of the Peach Bell, with spikes of double, pure white flowers	.50	5.00
C. **pusilla**—One of the very choice rock bellflowers. Strong grower with a profusion of blue flowers during July and August. About three inches high	.50	5.00
C. **pusilla "The Major"**—Bright blue blossoms. Charming for the rockery or edging	.50	5.00
C. **Raddeana**—A very handsome perennial, forming a compact bush some 12 inches high, with dark, wiry stems and large purple flowers. Very beautiful if planted near a low shrub in the rockery, to act as a light support for the beautiful blossoms	.50	5.00
C. **rotundifolia**—The wild blue English harebell; very graceful drooping blue bells, rising from compact tufts of foliage; fine for rockery	.25	2.50
C. **rotundifolia alba**—Pure white form of this charming harebell	.35	3.50
C. **rotundifolia Hostii**—A large form of above with rich blue flowers. Very free	.35	3.50
C. **Robsoni**—A new hybrid of Scheuchzeri and turbinata with large, deep blue bells on spikes	.35	3.50
C. **Sarmatica**—A vigorous variety, growing to a height of a foot or so and laden with pale blue bells	.50	5.00
C. **Stansfieldii**—An easily grown and beautiful variety of bellflower. It forms a dwarf carpet of leaves and bears unusually large blue, somewhat drooping flowers. Charming in the rockery	.50	5.00
C. **Tommasiniana**—A lovely Italian alpine with narrow blue flowers on slender stems. It forms a dense tuft and flourishes in light soil on rock work; 9 in.	.75	7.50
C. **turbinata**—Similar to C. carpatica but more dwarf, with deep purple, erect flowers	.35	3.50
C. **velutina**—Downy foliage, large white flowers, tinted pink. Prefers a dry position; 1 ft.	.50	5.00
C. **Vidalli**—A very beautiful biennial campanula, forming a pyramidal bush 2 ft. high. Flowers pale blue. Half hardy	.50	5.00

	Each.	Doz.
C. waldsteiniana—A Hungarian rock plant of exquisite beauty. It has upright and star-shaped blue flowers on short stems. It does well in a cool part of the rock garden in gritty loam. Scarce and very choice....	.75	7.50

CENTRANTHUS—Valerian Family

Hardy Perennial

C. ruber—Excellent showy plant for borders, walls, etc. Blooms all summer and is excellent for cutting..	$ .25	$ 2.50

CERASTIUM—Chickweed

Hardy Perennial

C. tomemtosum (Snow in Summer)—Grey foliage and white flowers. Invaluable for rockeries.....	.25	2.50

CHRYSANTHEMUM LEUCANTHEMUM
Shasta Daisy

Hardy Perennial

A handsome, strong growing plant for the hardy border and valuable for cutting.

C. Alaska—Handsome plant, with large, glistening white blossoms	$ .25	$ 2.50
C. Kenneth—Very New—Pure white, elegantly lacinated. Very lasting.....	.35	3.50
C. King Edward VII.—Huge cup-shaped flowers. Very attractive; 2½ ft.....	.25	2.50
C. Mrs. C. Lowthian Bell—Very large, perfectly formed flowers. Continuous bloomer. One of the largest	.25	2.50
C. Vomerense—Very New—Pure white. The largest and most refined. Undoubtedly the finest of the group. Its flowers frequently measure 6 inches across; 3½ ft.....	.35	3.50
C. arcticum (Arctic Daisy)—A very hardy and most attractive plant. Forms a rosette of deep green foliage and in the fall is a mass of white daisies sometimes tinged lilac.....	.25	2.50

	Each.	Doz.

CLEMATIS—Virgin's Bower

Hardy Perennial

C. **recta grandiflora**—One of the best hardy perennials. A strong, erect growing plant with heads of creamy white flowers. Is best moved when young ..... .35 3.50

CLEMATAQUILA—Spurless Columbine

Hardy Perennial

This is a new strain exhibited before the Royal Horticultural Society in London and supposed to be a cross between Clematis and Aquilegia. The growth is like the columbine and the flowers are very graceful and entirely without spurs. The colors are similar to those in Aquilegia hybrids and all are lovely—pale pink, rose, blue, purple and white ..... $ .25 $ 2.50

COREOPSIS—Tick Seed

Hardy Perennial

C. **grandiflora**—A splendid, showy plant for the border or shrubbery. Flowers bright yellow, two or three inches across, all summer. One of the best; 3 ft. .25 2.50

CORYDALIS—Fumitory

Hardy Perennial

Ornamental, early flowering plants, especially useful for shady positions but requiring good drainage.

C. **cheilanthifolia**—Handsome variety with fern-like foliage and long spikes of yellow blossoms, 10 to 12 inches in height. Prefers rich, well drained, stony soil. Very rare and perfectly hardy ..... .75 7.50

C. **thalictrifolia**—One of the best recent introductions from China. Handsome foliage and bright, clear yellow flowers in long racemes ..... .75 7.50

	Each.	Doz.

DELPHINIUMS—Hardy Larkspur

Hardy Perennial

The Delphinium of today is one of the most beautiful of all flowers. It is most rich in coloring and very stately of habit. The foliage is very attractive and the spikes of bloom freely borne. A border of Delphiniums will often remain in bloom for two months.

The culture of Delphiniums is exceedingly simple as they thrive in almost any position. A rich, friable loam will suit them finely. Dig deeply, add plenty of well-rotted manure and plant about three to four feet apart, being very careful that no manure comes in contact with the roots.

Planted in lines or groups as a background for other plants, the effect is exceedingly fine. Copious watering in summer will greatly increase the size of spike and flower and top dressing is strongly recommended that the soil will not dry out and bake. Coal ashes strewn over the crowns will protect the plant from slugs and worms through the winter and spring.

We regret to be obliged to omit our list of named varieties for this season as we have sold ourselves entirely out of stock.

D. **Belladonna grandiflora**—A much improved form of the Beladonna type bearing large flowers of a beautiful sky blue. Extra fine	$ .25	$ 2.50
D. **English Hybrids**—From the finest named varieties to be found abroad	.50	5.00

DIANTHUS—Pinks

Hardy Perennial

Pinks comprise a large number of valuable plants for the rockery, wall garden or border. We have formed what we consider a very representative collection of Pinks. The majority are of easy culture and where any special treatment is necessary, we have made mention of the fact.

All Pinks should have plenty of sun, unless otherwise mentioned, and the majority may be divided after flowering.

	Each.	Doz.
D. **alpinus (Alpine Pink)**—This is one of the loveliest of all rockery Pinks, with glossy leaves and large flowers of brilliant rose, produced during June and July. It thrives best in loam with some lime added and perhaps a little shade during the hottest part of the summer. A gem for the rock garden; 6 in.	$ .50	$ 5.00
D. **arenarius (Sand-loving pink)**—As its name indicates, this Pink delights in a sandy soil and sun. Flowers white with a carmine ring, deeply fringed and fragrant. Excellent for dry, hot places; 6 inches..	.30	3.00
D. **cæsius grandiflorus**—This is the "Cheddar Pink" and one of the best known of the family. It is very campact in growth and makes a cushion of glaucous leaves from which, in May, spring the sweet-smelling, rose-colored flowers, each on its own stem. It varies as much as from four inches to ten inches in height. It is easily grown and very fine for the wall or rock garden; 6 in.; true	.50	5.00
D. **caesius Arvernensis**—A delightful miniature form of D. caesius, with the same lovely blossoms on stems of only two or three inches in height	.75	7.50
D. **cruentus**—Dense heads of flowers on long stems. Deep red. Fine border plant	.25	2.50
D. **deltoides (Maiden Pink)**—A beautiful little plant with narrow leaves and bearing a profusion of small crimson flowers during June and July. Easily grown on rockery	.25	2.50
D. **deltoides albus**—A charming white form of the above variety	.25	2.50
D. **deltoides "Brilliant"**—A very choice variety of the above, bearing bright rose colored flowers	.35	3.50
D. **Falconeri**—A small plant with extremely glaucous foliage, almost blue. Small, cream white blossoms in June. Extremely choice	.75	7.50
D. **fragrans**—An easy rockery pink, needing sandy loam and grit. It produces white fringed flowers. Fragrant. Sun	.30	3.00
D. **gallicus**—Flowers purplish crimson, highly scented, on stems about one foot high	.30	3.00
D. **giganteus**—The tallest of the pinks, growing to a height of 24 to 28 inches. Bluish foliage, flowers of medium size, bright crimson on long, unbranched stems	.30	3.00

	Each.	Doz.
D. **glacialis**—Although this is listed by some as one of the difficult pinks, it has been of the easiest culture with us in gritty sand and peat. It has exquisite rose colored blossoms on short stems and is a real treasure for the rockery. Very rare	.75	7.50
D. **graniticus (Granite Pink)**—A glorified form of the Maiden Pink, rather taller and with large rose-colored flowers from June onward. Prefers a sunny place and gritty soil. Especially fine for the rock garden	.25	2.50
D. **kamtschaticus**—Distinct rock plant and one of the best introductions of recent years. It is of trailing growth with large, deep pink flowers	.25	2.50
D. **neglectus**—One of the most beautiful wild Pinks in cultivation. The stems are about 6 inches high with deep rose-colored flowers, frequently borne two on a stem. No flower garden should be without this lovely Pink	.50	5.00
D. **petraeus**—Tufted growth, about a foot in height, bearing a profusion of fringed, rose colored blossoms. Very fragrant	.25	2.50
D. **seguieri**—A late flowering species with rose crimson blooms on stems about a foot high	.25	2.50
D. **superbus grandiflorus (Fringed Pink)**—Very fragrant and bears deeply fringed flowers, ranging from white to pink or rose	.25	2.50
D. **superbus Holtzeri**—A very beautiful variety of the above. Blooms early	.25	2.50
D. **sylvestris (Wood Pink)**—Bluish foliage and salmon pink flowers on stems about a foot high. It likes an open, sunny place in stony loam and a slight covering of stone chips upon the surrounding soil is beneficial	.30	3.00
D. **plumarius hybrids (Hardy Garden Pink)**—Very easily grown and ranging from white to deep rose. Hardy Pinks are favorites with all gardeners and thrive in a sunny, well-drained position. Very fine strain	.25	2.50
D. **plumarius "Cyclops"**—Lovely large-flowered single Pinks of rose or crimson color; fine for cutting; 15 in.	.25	2.50
D. **plumarus "Homer"**—Rosy pink with dark center	.25	2.50

	Each.	Doz.
D. **plumarius "Maurice Pritchard"**—Perhaps the finest single Pink. Robust constitution. Exceptionally large pink flowers. Excellent for cutting	.25	2.50
D. **plumarius "Mrs. Sinkins"**—Large double white flowers. Very fragrant	.50	5.00
D. **plumarius "Munstead Strain"**—A charming class of pheasant-eyed Pinks. Single flowers and very fragrant	.25	2.50
Hardy Carnations—The genuine hardy border carnation is a great addition to the garden. During the last few years great progress has been made in the culture of these plants and we take great pleasure in offering a strain from one of the best known growers in Scotland. They are perfectly hardy and bear in profusion blooms that are quite as large and just as handsome as the greenhouse variety. We guarantee these to be the true variety	.50	5.00

SWEET WILLIAM

Hardy Perennial

D. **barbatus "Diadem"**—Most effective. Rich crimson with large white eye	.35	3.50
D. **barbatus "Harlequin"**—Each head of flowers includes many shades of color, curiously marked. Exceedingly bright	.35	3.50
D. **barbatus "Holborn Glory"**—A very fine auricula-eyed variety, white with a well marked and distinct eye	.35	3.50
D. **barbatus "Pink Beauty"**—A beautiful salmon pink variety, which should be grown in every garden	.40	4.00
D. **barbatus "Scarlet Beauty"**—An intensely rich deep scarlet. Very new and very fine	.40	4.00
D. **barbatus "Giant White"**—A very fine large flowered pure white variety	.35	3.50
D. **Deep Crimson**—Very handsome, deep red	.35	3.50
D. **barbatus Double Mixed**—A splendid strain of the old-fashioned double Sweet William	.25	2.50

	Each.	Doz.

DIGITALIS—Foxglove

Hardy Perennial

The Foxglove has been a favorite in gardens since our grandmother's time and adds beauty and dignity to any planting. The newer varieties show exceedingly choice colorings as well as increased size in spike and bloom and in combination with Larkspur and Canterbury Bells, create a most charming spot in any garden.

Their cultivation will give no trouble if given a rich, friable soil and not treated too kindly by covering the crowns for the winter. Cornstalks, so placed that they do not mat down, make an ideal covering, as they must have air during the winter. It is also well to remove some of the largest leaves.

D. **"Ayshire White" (New White Foxglove)**—A very fine variety, producing large spikes of pure white flowers ..... .35 3.50

D. **"Giant Primrose"**—A beautiful Foxglove with large flowers of cream or buff color ..... .35 3.50

D. **"Giant Spotted"**—Beautiful Spotted flowers in many different colors. Very large ..... .30 3.00

D. **lanata**—Very distinct, producing spikes nearly four feet high of deep cream-colored flowers with brown spots. Rarely seen in gardens. Very effective planted with Rudbeckia purpurea ..... .25 2.50

DRABA—Whitlow-Grass

Hardy Perennial

One of the important spring flowering plants for the rockery. Very dwarf and compact with numerous small flowers in early spring. They require an open soil and sunny position.

D. **aizoides**—Forms beautiful little rosettes of hairy leaves, covered in spring with bright yellow flowers about 2 inches high ..... $ .35 $ 3.50

D. **borealis**—Forms a rosette of slightly caespitose leaves and in spring bears white flowers on stems from two to twelve inches high. Rockery ..... .35 3.50

D. **Dedeana**—From northern Spain. Forms a dense tuft and covered with small white blossoms in early spring. Fine for rockery ..... .35 3.50

	Each.	Doz.
D. **lasiocarpa**—Very attractive rosettes of densely hairy leaves bearing umbels of deep yellow flowers in early spring	.50	5.00
D. **repens**—A graceful plant of trailing growth with numerous bright yellow flowers in early spring. Rockery	.50	5.00

DRACOCEPHALUM—Dragon's Head

Hardy Perennial

A very valuable class of plants for moist, shady positions. They do not bloom well where it is dry and sunny.

D. **japonicum "Blue Gem"**—An excellent deep blue hybrid of D. japonicum and blooms all summer. About one foot high	.35	3.50
D. **nutans alpinum**—Beautiful plant for the rockery. Half trailing growth with an abundance of purple blue flowers	.50	5.00
D. **Ruprechtii**—Vigorous plant about 1½ feet high. Flowers purplish blue	.25	2.50
D. **Ruschyanum**—Dense spikes of deep purple flowers on stems about one foot high	.25	2.50

ECHINOPS—Globe Thistle

Hardy Perennial

E. **ritro**—Showy, thistle-like plants with large heads of steel blue flowers in July. Very attractive to bees and exceedingly effective when planted near rose-pink phlox	.30	3.00
E. **sphærocœphalus**—Fine silvery foliage and heads of whitish flowers	.30	3.00

ERIGERON—Fleabane

Hardy Perennial

Showy plants with daisy-like blooms springing from tufts of more or less hairy leaves. Very effective used in masses in the border or rock garden.

E. **alpinus**—A dwarf aster with delicate pink blossoms. Especially good for rockery	.25	2.50

	Each.	Doz.
E. **Coulteri**—Large white or mauve daises on stems about a foot high. Likes a moist, open position	.35	3.50
E. **elatior**—Striking plant with silvery-lavender flowers in clusters on stems about a foot high	.35	3.50
E. **glabellus**—Dwarf, violet flowers	.35	3.50
E. **glaucus**—Very handsome variety with large, violet daisies. About 18 inches high	.35	3.50
E. **multiradius roseus**—Dainty rockery plant of dwarf habit with a profusion of pink blossoms. New	.50	5.00
E. **speciosus grandiflorus**—Larger and deeper colored than the type	.35	3.50

ERINUS—Wall Erinus

Hardy Perennial

Very attractive spring flowering plants for the rock garden or dry wall. Thrives best in steep parts of the rockery where water cannot lodge and requires a little shade from the mid-day sun.

E. **alpinus**—Purple flowers in racemes about 2 in. long	.35	3.50
E. **alpinus albus**—A white variety of the above	.35	3.50
E. **alpinus roseus**—Sprays of bright red flowers and very attractive in clumps	.35	3.50
E. **hirsutus**—Leaves are more hairy than on the other varieties. Flowers reddish purple	.35	3.50

ERODIUM—Heron's Bill

Hardy Perennial

Very choice and valuable race of plants belonging to the Geranium family. Prefer light, rich soil and sunny position. Perfectly hardy.

E. **daucoides**—Small, rose-colored flowers. Foliage like a finely cut fern. 4 inches	.75	7.50
E. **Guicciardi**—Beautiful, silvery foliage, from which the numerous flower stems rise to about 8 or 9 inches, each stem carrying from four to seven flowers of a lovely rose color	.75	7.50
E. **tricomanefolium**—Handsome, deep green foliage, finely cut and slightly downy. Flowers in heads of from three to seven on stems about 8 inches high, of rosy pink with darker veining	.75	7.50

	Each.	Doz.

ERPETION—Reniforme

Hardy Perennial

Fine creeping plant forming tufts of leaves close to the ground. Small violet and white blossoms, like a baby Viola, to which family it belongs. A gem for the rockery ..... .35 3.50

ERYNGIUM—Sea Holly

Hardy Perennial

Handsome ornamental plants for the hardy border and especially useful for striking effects in landscape work.

E. **amesthystinum**—Distinct, glistening blue blossoms. Finely cut foliage. 2 ft. Splendid variety..... .35 3.50

E. **Bourgati**—Bright, steel blue flowers and stems. Foliage deeply cut. 2½ ft ..... .35 3.50

E. **caeruleum**—Good, clear blue flowers and stems. About 2 ft. Very valuable..... .50 5.00

E. **planum**—Branching heads of steel blue flowers, stems and bracts of a glistening metallic sheen..... .30 3.00

GAILLARDIA—Blanket Flower

Hardy Perennial

During the summer and autumn months Gaillardias are among the gayest and most showy flowers and when grown in masses are literally a sheet of brilliant color. The flowers last a long time either on the plants or in a cut state. We have a fine strain of mixed varieties, only, this season..... $ .25 $ 2.50

GALEGA—Goat's Rue

Hardy Perennial

Showy plants of the easiest culture and very useful in the hardy border. They form very bushy plants with attractive foliage and pea-shaped flowers. Fine for cutting.

G. **Duchess of Bedford**—Lilac and white flowers. Very free flowering..... $ .25 $ 2.50

G. **officinalis**—Dense clusters of lilac flowers..... .25 2.50

G. **orientalis**—Blue purple. Loose, graceful habit..... .25 2.50

G. **persica**—Pure white ..... .25 2.50

GERANIUM—Crane's Bill

Hardy Perennial

	Each.	Doz.
G. **Fremonti**—Large, showy flowers of a rosy purple. Blooms all summer. About two feet high and a very desirable plant for the hardy border	.25	2.50
G. **grandiflorum**—A fine plant for the border with striking deep violet flowers two inches across	.25	2.50
G. **ibericum**—Handsome, violet flowers, about one inch across, in showy panicles. Tufted foliage. One of the best	.50	5.00
G. **Lowii**—Very strong growing with handsome foliage unlike any other Geranium. Flowers rose pink. Very choice	.50	5.00
G. **nepalense**—Numerous showy flowers of a rosy purple. Especially good for the rockery. 18 inches	.25	2.50
G. **pratense**—Large blue flowers in pairs on stems 2½ ft. high. Very handsome plant for border	.35	3.50
G. **pratense album**—Very handsome white variety of the Meadow Crane's Bill	.25	2.50
G. **sanguineum**—Attractive foliage and bright crimson flowers. 18 inches	.25	2.50
G. **Traversii**—A beautiful dwarf, silver leaved Geranium. Large rose colored blossoms over an inch across and borne on stems about four inches high. A treasure for the rock garden, although not reliably hardy in the open, north of Washington	.75	7.50

GEUM—Avens

Hardy Perennial

Excellent border or rock plants, liking plenty of sun above and moisture at the roots during hot summers. They produce very showy, bright colored flowers from June to August.

G. **Bulgaricum**—Enormous, orange yellow flowers; a magnificent variety. Very scarce and far in advance of any other Geum	$ .50	$ 5.00
G. **Eweni**—Semi-double, orange yellow; 1 ft.	.25	2.50

	Each.	Doz.
G. **reptans**—One of the choicest of rock plants, native of the highest Alps. Plumy, feathered foliage, about 9 inches high, bearing enormous, golden blossoms on slender stems. Does best in very poor, stony and ashy soil	1.00	10.00
G. **Mrs. Bradshaw**—Large double scarlet, blooming nearly all summer. Very attractive	.30	3.00

GILLENIA—Bowman's Root

Hardy Perennial

G. **trifoliata**—Handsome plant for the rockery or hardy border with deeply cut foliage and numerous pinkish white flowers	.30	3.00

GYPSOPHILA—Chalk Plant

Hardy Perennial

G. **cerastoides**—Excellent plant for the rockery or very sandy soils, bearing a profusion of large white flowers, veined pink	.50	5.00
G. **Maungini**—A new variety from Mongolia. Very vigorous growth, attaining about four feet; glaucous foliage and numerous pinkish white flowers	.50	5.00
G. **paniculata**—Clouds of foam-like, white blossoms during July and August. 3 ft	.25	2.50
G. **paniculata fl. pl.**—Beautiful, double flowering form. Flowers purer white and a valuable plant for the hardy border	.50	5.00
G. **repens**—Very attractive trailing plant for rockery or dry wall. Covered with small white flowers	.25	2.50
G. **repens rosea**—Delicate rose colored variety of the above	.25	2.50

HELENIUM—Sneezewort

Hardy Perennial

Gorgeous plants for fall bloom, coming into flower in August and continuing until frost. There is quite a range in height and they are especially effective when planted with fall Asters.

H. **Autumnale Rubrum**—Deep, rich crimson-purple. Fine; 5 ft	.50	5.00

	Each.	Doz.
H. a. **Superbum**—Very fine, large flowered variety. Pale yellow with darker center. 5 ft	.30	3.00
H. **Bigelowi**—New species. Deep yellow, black disc and long stems. Prefers damp ground in full sun	.35	3.50
H. **Hoopsei**—Very large, orange yellow blossoms from June throughout the summer. A very fine border plant. 3 ft	.30	3.00
H. **Riverton Beauty**—Rich lemon yellow with large purplish center	.25	2.50
H. **Riverton Gem**—Old gold, changing to wall flower red. Very handsome	.30	3.00

HELIANTHUS—Perennial Sunflower

Fine for showy effects and as a background for other plants. Will grow anywhere and bloom from mid-summer till fall.

H. **Miss Mellish**—Orange yellow. Very free	$ .25	$ 2.50
H. **Soleil d'Or**—Rich yellow. Full double, quilled petals	.25	2.50
H. **Wolley Dodd**—Deep yellow, about 6 feet	.25	2.50

HELIANTHEMUMS—Rock or Sun Rose

Hardy Perennial

Exceedingly useful as well as beautiful low growing plants for either the hrady garden or rockery. They are litterally covered all summer with their delicate, crinkled blossoms, in almost every color of the rainbow. They demand sun and sandy soil and are especially valuable for places too poor to grow other plants. We have proven them perfectly hardy here, in spite of their reputation to the contrary | .35 | 3.50

HEMEROCALLIS—Yellow Day Lily

Well known and popular plants, suitable for almost any situation but preferring a moderately moist and partially shady position. Make very showy clumps for the hardy garden.

H. **Apricot**—Rich apricot color	$ .30	$ 3.00
H. **aurantiaca**—Bright orange. Very fragrant	.30	3.00

	Each.	Doz.
H. **flava—Lemon lily.** Blooms in June	.25	2.50
H. **Gold Dust**—Bright yellow. Reverse of petals bronzy	.25	2.50
H. **Kwanso fl. pl.**—Beautiful double blossoms of a bronzy-orange. Very lasting	.35	3.50
H. **Middendorffii**—Rich orange yellow. Very free	.25	2.50

HOLLYHOCK—Althaea Rosea

Hardy Perennial

No hardy garden is complete without the stately and majestic Hollyhock. They lend beauty to the hardy border or shrubbery which cannot be secured with any other plant.

The Hollyhock requires a deeply dug, well enriched soil and should be well supplied with water during the summer months. They will live and thrive for years if protected around the collar with sand or coal ashes during winter and if the stem is left a foot or so high instead of being cut to the ground, it will prevent the crown from rotting.

So far as we know, there is no absolute cure or prevention of the Hollyhock disease but we are pleased to give our patrons the benefit of a remedy found most effective by the specialists in England.

"Slack one peck of lime and when cool add one peck of soot, 1 pound of flowers of sulphur and half an ounce of sulphate of copper (finely powdered). Pass the mixture through a fine sieve and dust the plants well over with it three or four times during the growing season, preferably early in the day while the dew is still on the plants."

We regret that we are obliged to withdraw our list of named varieties for this season, having sold ourselves short and unable to obtain any stock from England this year. We hope, however, to be able to offer them again next season.

We have a very fine strain of double Hollyhocks in mixed colors, which we are offering at	.30	2.50
A. **Ficifolia bybrid**—Figleaved. So called from the shape of the leaf. Single blossoms in many shades of color	.30	2.50
A. **Allegheny**—Large flowers, formed of loosely arranged petals in colors from palest pink to deep red	.30	2.50

	Each.	Doz.

HYPERICUM—St. John's Wort

Hardy Perennial

Very ornamental plants, especially valuable in the rock garden. Their foliage is attractive, habit good and their late flowering makes them especially desirable. They prefer a rich, sandy loam and if given partial shade, the blossoms last longer.

H. **Coris**—One of the jewels of the race, forming spreading tufts of blue foliage covered with cups of clear gold on thread-like stems of 6 or 8 inches, the numerous stamens giving them a sky-rocket effect. Especially fine for the rockery	1.00	10.00
H. **empetrifolium—Very similar to H. Coris but the** stems are branching and the petals fall when they are finished, which those of H. Coris never do	.75	7.50
H. **olympicum**—Upright growth, about a foot high. Leaves grayish green; flowers large, golden yellow. Very handsome	$ .50	$ 5.00
H. **polyphyllum**—Rare. Glaucous foliage. Flowers yellow in dense terminal cymes. In bloom all summer	.75	7.50
H. **repens**—Exceedingly choice, prostrate variety, bearing a profusion of golden yellow blossoms. Fine for the rockery	.50	5.00
H. **Reptans**—Beautiful, absolutely prostrate variety, forming a perfect sheet over the rocks, covered with enormous roses of gold, the outside petals being varnished with mahogany, the center having the characteristic shower of stamens. A gem every rock gardener should possess	1.00	10.00

IBERIS—Candytuft

Hardy Perennial

The evergreen Candytufts rank high among the rock garden flowers. They are of half-shrubby growth and in April and May become smothered with bloom. Ordinary well-drained soil suits them and they never look better than when planted above some rock ledge so that the growth may hang over its face.

	Each.	Doz.
I. **gibraltarica hybrida**—Very handsome variety of Candytuft with flowers shading from deep lavender to white. Blooms nearly all summer. Very strong grower. Young plants transplant best	$ .35	$ 3.50
I. **petrae Tenoreana**—Splendid variety for sunny bank or rockery, forming dense mats a foot across, covered in Spring with heads of white blossoms, often tinged purple as they fade	.50	5.00
I. **Sempervirens "Snowflake"**—A splendid new variety with large white flowers and evergreen habit	.35	3.50

LATHYRUS—Everlasting Pea

Hardy Perennial

L. **latifolius "Pink Beauty"**—A very desirable hardy climber, bearing a profusion of delicate pink blossoms	.50	5.00
L. **latifolius "White Pearl"**—A very lovely pure white variety of the Everlasting Pea and a great improvement on the common L. albus	.50	5.00
L. **rotundifolius**—A fine variety with clusters of scarlet blossoms	.50	5.00

LAVANDULA—Lavander

Hardy Perennial

L. **vera**—The true Lavender of our Grandmothers' gardens, prized for its fragrant leaves as well as for its attractive blue flowers	.35	3.50

LEONTOPODIUM—Edelweiss

Hardy Perennial

Contrary to the popular supposition that, because of the natural habitat of Edelweiss being on high mountains, it is difficult to grow, it is really easy if firmly planted in well-drained, stony loam in a sunny place among the rocks. The woolly flower heads, on stalks about six inches high, rise from a loose tuft of rather narrow grey leaves, in June. It requires lime in the soil	.50	5.00

	Each.	Doz.

LINARIA—Toad Flax

Hardy Perennial

L. **alpina**—A charming rock garden plant of trailing growth, bearing a profusion of violet flowers with orange throat, like a miniature Snapdragon. Loves a sunny spot in well drained soil ..... .35 3.50

L. **alpina rosea**—Handsome variety of the above with pale pink blooms ..... .35 3.50

LINUM—Flax

Hardy Perennial

Charming border plants of easiest culture and profuse bloomers. Prefer sandy loam in full sun.

L. **alpinum**—A rare species from the Dauphine, of prostrate growth with showers of pale blue blossoms throughout the summer. ..... .50 5.00

L. **flavum**—Fine variety with transparent, yellow blossoms. Very attractive ..... .50 5.00

L. **Narbonense**—Forms a spreading clump of attractive foliage with a profusion of azure blue flowers with white eye. Very handsome for the rockery ..... .50 5.00

L **perenne**—Very attractive, both in foliage and bloom. Flowers beautiful pale blue on slender, graceful stems ..... .25 2.50

LUPINUS—Lupine

Hardy Perennial

The Lupins are well known garden plants, bearing long spikes of pea-like blossoms of various colors. In many gardens Lupins are killed with kindness, as they strongly object to a rich soil. Planted in sandy loam, full sun and having perfect drainage, they will continue to be a joy for many years and one of the very showy subjects of the garden.

We are fortunate in being able to offer hybrids from one of the most famous Lupine growers in Europe and the choice colors and large blooms will more than please our customers. Young plants ..... $ .35 $ 3.50

	Each.	Doz.

LYCHNIS—Campion

Hardy Perennial

A family of very showy and useful plants both for the border and rock garden. Very easy culture, thriving in almost any soil but requiring full sun.

L. **alpina**—A very attractive little plant for the rockery, of tufted growth and bearing heads of pink blossoms in May and June	$ .35	$ 3.50
L. **Arkwrightii**—A new and very desirable border plant, being a cross between L. chalcedonica and L. Haageana. Make a long and lasing display in many new and lovely colors	.50	5.00
L. **chalcedonica**—Brilliant scarlet; very showy	.25	2.50
L. **Haageana**—Brilliant orange scarlet blossoms in June and July	.35	3.50
L. **Lagascae**—An exquisite little plant for the rockery. Forms small clumps about 4 inches high, covered with showy blossoms of carmine rose	.50	5.00

MERTENSIA—Blue Bells

Hardy Perennial

One of the most attractive early blooming plants and especially useful as it thrives best in shade. Should be given a very rich soil and be left undisturbed for years.

M. **primuloides**—A rare variety. Dwarf growth and plum colored flowers	.50	5.00
M. **virginica**—(Virginian Cowslip)—Long, nodding clusters of pale blue flowers with pink buds, making a most charming combination. Prefers moist, peaty ground. Foliage disappears during summer	.25	2.50

MONARDA—Oswego Tea

Hardy Perennial

One of the most brilliant flowers for the border. Will grow in almost any position and spreads rapidly.

M. **Didyma—Cambridge Scarlet**—A very brilliant variety and especially effective with a dark background	$ .30	$ 3.00

	Each.	Doz.

MORINA—Whorl-Flower

Hardy Perennial

M. **Longifolia**—A very handsome plant with spiny thistle-like foliage and tall spikes of white and rose tubular flower in whorls. They thrive in rich, sandy loam and require a little shade and shelter; 2 ft..... $ .50 $ 5.00

MYOSOTIS—Forget-me-not

Hardy Perennial

Nearly everyone is familiar with the Forget-me-not which makes such beautiful pictures in the garden in early spring. They are alike charming in the border, rock garden or by the water side. They all require shade and a fair amount of moisture.

M. **Alpine Blue**—One of the most intense blues of all the Forget-me-nots and makes a very compact growth; 9 inches ..... $ .25 $ 2.50

M. **Blue King**—One of the richest and deepest colored blues of all the Alpine Forget-me-nots; 10 in..... .25 2.50

M. **alpestris**—(Alpine Forget-me-not)—Bright blue; a lovely rock garden plant..... .30 3.00

M. **alpestris rosea**—Charming pink variety of above.... .30 3.00

M. **alpestris "Queen Victoria"**—Improved dwarf variety with large flowers in clusters ..... .25 2.50

M. **Palustris Semperflorens**—Large rich blue flowers with yellow eye, a charming plant for damp places and a more profuse bloomer than the type..... .20 2.00

M. **Ruth Fisher**—A fine new hybrid of compact habit, with dark green glossy foliage and large, bright blue flowers ..... .50 5.00

M. **Spring Beauty**—A beautiful early flowering variety of compact habit and charming light blue flowers; 10 inches ..... .35 3.50

M. **Royal Blue**—An exquisite variety of Forget-me-not, literally covered with flowers of beautiful indigo blue in long sprays. A mass of this makes a sight not to be forgotten. Fine for cutting; 12 in..... .25 2.50

M. **Welwitschii**—A Spanish species with large blue flowers and distinct yellow eye. Makes a compact, tufted growth. Choice..... .20 2.00

	Each.	Doz.
M. **White Lady**—A beautiful variety, covered with clusters of white flowers, having a small, striking yellow eye; 10 inches	.25	2.50

MYRRHIS—Myrrh

Hardy Perennial

M. **odorata**—The Sweet Cicely of English gardens. A very attractive plant having finely cut foliage resembling a large fern and bearing panicles of lace-like white bloom in early spring. Very valuable as a background for spring blooming bulbs	$ .35	$ 3.50

NEPETA—Catmint

Hardy Perennial

N. **macrantha**—A free growing plant with spikes of lavender flowers	.15	1.50
N. **Mussini Dark Var.**—A new variety with deep blue flowers. Very handsome	.50	5.00
N. **nuda**—A novelty received from Switzerland. Rather dwarf and compact grower	.50	5.00

OENOTHERA—Evening Primrose

Hardy Perennial

The Evening Primroses are excellent subjects for planting in sunny, exposed parts of the garden and are especially fond of a sandy soil.

O. **caespitosa**—A beautiful dwarf variety with large, pink blossoms	$ .50	$ 5.00
O. **speciosa**—Large, pure white flowers, about 3 in. across	.25	2.50
O. **speciosa rosea**—A most striking new variety. The beautiful rose colored flowers cover the plant from early summer until frost	.25	2.50
O. **taraxacifolia**—Forms a spreading tuft of leaves close to the ground, from which spring twisted stems bearing very large white blooms, turning to pink with age. Very attractive	.50	5.00

	Each.	Doz.

PAPAVER—Poppy

Hardy Perennial

P. **alpinum**—Like a small and more delicate Iceland Poppy having flowers of white, pink, orange or yellow and often delicately fringed. Transplants best when quite small. True stock, from Switzerland	$ .35	$ 3.50
P. **nudicale**—Iceland Poppy—A native of the arctic regions and mostly yellow flowered. Very showy and excellent for cut flowers	.30	3.00
P. **pilosum**—Very attractive alpine with showy red flowers	.30	3.00
P. **orientale**—Gorgeous subjects for the hardy border and very easily grown. The new shades of pink are exquisite and harmonize with other plants in the garden which the older orange scarlet shades do not always do.		
P. **"Mahoney"**—Deep mahogany color. Very handsome	.35	3.50
P. **"Mary Studholme"**—Salmon with a silvery sheen and deep carmine at the base. One of the best	.35	3.50
P. **"Mrs. Perry"**—Orange apricot shade	.35	3.50
Finest mixed seedlings, from named varieties	.25	2.50

HARDY PHLOX

Perennial

These beautiful hardy border plants are among the most effective things in the garden during the late summer and fall months. The varieties have been much improved during the past few years, both as to color and size of pip. To be at their best, they require soil which has been deeply enriched and plenty of water during the blooming period. It is also well to remember that they should never be allowed to go to seed and should be divided every three years, or they will become small and in not a few cases, change their color.

We have tried to confine our list to the very best of the numerous varieties offered and can safely say there is not a poor variety in the lot.

Alceste—Deep violet, shading to blue	.25	2.50
Athis—Deep, clear salmon. Very fine	.25	2.50

	Each.	Doz.
Baron von Dedem—Large, handsome spike; brilliant blood red flower	.25	2.50
Beauty—Delicate, silvery pink. Handsome	.25	2.50
Beranger—White ground, suffused rosy pink with distinct eye of same color	.25	2.50
Elizabeth Campbell—One of the finest. Large flower and spike. Bright salmon pink with dark red eye	.35	3.50
Eugene Danzenvillier—Lilac, shading to white at the edges	.25	2.50
Europa—A new variety, white with large crimson-carmine eye. Very large flower and truss	.25	2.50
Frau Anton Buckner—The finest white phlox. Strong habit and flowers of an enormous size	.25	2.50
Jeanne d' Arc—Good late flowering pure white. Very free bloomer	.25	2.50
Le Mahdi—Dark purple violet. Late	.25	2.50
Louise Abbema—Very large, dwarf, pure white	.25	2.50
Mme. Paul Dutrie—Very soft, delicate pink. Flowers very large, immense panicle	.25	2.50
Miss Lingard—An early flowering variety, beginning in June and continuing all summer. White, with faint lilac eye and handsome, deep green foliage, it is a most popular variety for planting in masses	.25	2.50
Mrs. Jenkins—Pure white, enormous truss. Free bloomer and one of the best white	.25	2.50
Pantheon—Clear, deep, carmine pink with faint halo	.25	2.50
Rosenberg—Bright reddish-violet with blood-red eye. A most striking variety	.25	2.50
R. P. Struthers—Bright rosy-carmine with claret-red eye. Very brilliant	.25	2.50
Rynstrom—Beautiful rose pink. Extra fine	.25	2.50
Von Hochberg—Very rich, deep crimson. Extra large trusses. Very fine	.25	2.50
Von Lassburg—Pure white; very large individual flowers	.25	2.50
W. C. Egan—A most beautiful variety of soft pink with bright red eye. Immense flower and truss. Very fine	.25	2.50
Widar—Purple violet with very large white center	.25	2.50

PHLOX ARENDSI

Hardy Perennial

This new strain of early flowering Phlox originated from crossing P. canadensis and P. decussata. The plants are vigorous, from 12 inches to 24 inches high and produce masses of bloom from the latter part of May until July.

	Each.	Doz.
Amanda—Bright lilac with deeper eye. Very dwarf	$ .35	$ 3.50
Kathe—Rosy purple with a dark eye; 20 in.	.35	3.50
Louise—Bright lilac with carmine eye. Very strong growth; 24 in.	.35	3.50

PHLOX SUBULATA—Moss Pink

Hardy Perennial

The creeping Phloxes are easily grown in full sun and make a very valuable addition to either the hardy garden or rockery because of their sheets of color in early spring.

They form creeping masses of moss-like foliage, smothered with large, brilliant flowers. We list a few of the best.

P.	**Daisy Hill**—Large, deep rose blossoms	$ .35	$ 3.50
P.	**G. F. Wilson**—Delicate blossoms of pale lilac	.30	3.00
P.	**The Bride**—Purest White	.30	3.00

PHYSOSTEGIA—False Dragon-Head

Hardy Perennial

P.	**Virginica Grandiflora**—A plant much valued for hardy borders, blooming as it does in August when flowers are scarce. In good deep soil, will attain a height of over seven feet; bears long spikes of bright but soft pink flowers	.25	2.50
P.	**Virginica Grandiflora Alba**—Pure white, very attractive	.25	2.50

PLATYCODON—Chinese Bellflower

Hardy Perennial

These are closely allied to the Bellflower family and derive the name of "Balloon Flower" from the shape of the buds. They enjoy a very rich, loamy soil and are most attractive plants for the border, bearing blue blossoms for about a month or six weeks, beginning about the middle of July. They are best planted when quite young, as they do not bear disturbing after once established.

	Each.	Doz.
P. **Maresii**—A splendid variety of dwarf habit with very large flowers of a purplish blue color	$ .25	$ 2.50
P. **Grandiflorum**—Very handsome variety, about 2 ft. high, blooming in July and August. Flowers a deep blue two or three inches across	.25	2.50

POLEMONIUM—Jacob's Ladder

Hardy Perennial

Excellent border plants with strikingly handsome and effective blossoms. The foliage is also very handsome, closely resembling some of the ferns. They flourish in rich, deep, well-drained loam and prefer partial shade.

P. **Cæruleum Grandiflorum**—A very large form of P. Cæruleum having long spikes of large blue blossoms	$ .25	$ 2.50
P. **Cæruleum Grandiflorum Album**—A fine white form of the above	.25	2.50
P. **confertum pilosum**—A treasure from the highest Alps of the Rockies. Very dwarf, the flower stems of about 8 or 10 inches high bearing dense heads of beautiful saucerlike bells of clear, rich blue. A gem for the rockery	.75	7.50
P. **foliosissimum**—Spikes of blue flowers on stems about 2 ft high	.25	2.50
P. **Richardsoni**—Masses of beautiful, sky-blue blossoms. 18 inches	.35	3.50

	Each.	Doz.

POTENTILLA—Strawberry Flower

Hardy Perennial

Very effective plants for the hardy garden with strawberry-like leaves and showy blossoms which continue for a long period. Easily cultivated, doing well in an open position. Fine for cutting.

P.	**formosa**—Crimson; large, single blossoms	$ .25	$ 2.50
P.	**nepalensis**—Beautiful rose color	.25	2.50
P.	**Miss Willmott**—Deep cherry red	.25	2.50

POLYANTHUS—Bunch Primrose

Hardy Perennial

The Polyanthus is an indispensable spring flower and should be used largely in flower beds and borders, also wild gardens and rockeries. It likes an open, half-shady position in rich soil and under such conditions will bear flower stems a foot high.

P.	**Exhibition Blue**—A very beautiful strain, having flowers from deep to light blue	$ .50	$ 5.00
P.	**Munstead Strain**—In shades of yellow, from cream to dark orange, selected and perfected by Miss Jekyll of England	.35	3.50
P.	**Pink and Red Shades**—Very handsome, ranging from light to dark red, with yellow eye	.35	3.50
P.	**Exhibition White**—A very fine, large-flowered pure white, with striking yellow eye	.50	5.00
P.	**Woodside Varieties**—A very beautiful strain of Polyanthus obtained from Adelaide, Duchess of Bedford	.50	5.00

PRIMULA—Primrose

Hardy Perennial

A race of plants little known in America, but forming one of the most attractive features of the spring garden. They are perfectly hardy in our Michigan climate and once established are as sturdy as our oaks. The different varieties range in size from four inches to three feet, and in time of blooming from early April until late summer.

	Each.	Doz.
Do not try to compel Primroses to grow in hot, sandy places for you will only meet with failure. They need at least partial shade and while they enjoy moisture at the roots, they must have good drainage or they will rot at the crown. Also be particular when planting that no dirt is left on the crown, as it seems to smother them. We have found hard coal cinders excellent for drainage. In fact, the majority of rock plants seems to like cinders mixed with the soil.		
P. **auricula alpina**—One of the treasures of the rock garden. The growth is very attractive, forming rosettes of thick leaves, sometimes farinose or mealy. From these rosettes the flower stalks rise to a height of six or eight inches, bearing heads of bloom of various colors and exceedingly fragrant. Our strain is from the great Primula specialist in Scotland and comprises a wide range of colors. Their native home is in the rocks, where they are constantly supplied with moisture at their roots. Give them a mixture of peat, leaf mould and sandy loam with plenty of stones mixed with it	$ .50	$ 5.00
P. **auricula Mrs. S. Robinson**—A very handsome variety with large heads of deep yellow flowers	.50	5.00
P. **"Alannah"**—A beautiful Primrose between Bulleyana and Beesiana. The flowers are bright coppery red, shading deeper to eye, which is of rich yellow. Very new and very choice	1.00	10.00
P. **"Asthore"**—Coppery old rose flowers, tinged with heliotrope and shading deeper to the yellow eye	.75	7.50
P. **Beesiana**—Distinct type of Bulleyana and pulverulenta but later than either, with flowers of various shades of purple with yellow eye; 3 ft	.75	7.50
P. **Bulleyana**—A beautiful species from Yunnan. Flowers rich golden yellow, shaded orange buff, borne in whorls on stiff stems; 2 ft	.75	7.50
P. **Bullesiana Hybrids**—A new strain of Hardy Primulas with the constitution of P. Japonica resulting from the crossing of P. Bulleyana and P. Bessiana. They were given an AWARD OF MERIT by the Royal Horticultural Society in 1916. Colors range from cream to many shades of yellow, orange, purple, lilac, pink and crimson. They are very hardy and prefer a half shaded position that is fairly moist	.50	5.00

Primula denticulata

	Each.	Doz.
P. **capitata**—Producing dainty heads of handsome violet blue flowers, dusted with a white mealy powder. Likes a partially shaded, moist position; late; 1 ft.	.75	7.50
P. **Cashmeriana**—Flowers much the same as denticulata but of a deep purple	.50	5.00
P. **Cockburniana**—A lovely species recently introduced from Western China, bearing scarlet flowers in whorls; very striking. Makes a wonderful combination of color planted with Bulleyana. Biennial; 1 ft.	.50	5.00
P. **cortusoides**—A distinct Siberian species, with soft, wrinkled heart-shaped leaves. Flowers in early summer, deep rose. Prefers light, rich, well-drained soil, in a sunny position, in border or rockery; 10 in.	.50	5.00
P. **crispa**—Similar to capitata. Prefers a boggy place	.75	7.50
P. **denticulata**—Very handsome, large flower heads, in various shades of lilac. One of the first to bloom. Prefers a moist, shady position; 2 ft.	.50	5.00
P. **denticulata alba**—A beautiful white form of the above; 2 ft.	.50	5.00
P. **farinosa**—Silvery foliage and rosy purple flowers; 1 ft.	.50	5.00
P. **Forresti**—A beautiful variety recently introduced from China. Flowers on slender stems, deep orange, and very fragrant. Prefers well drained, half shady position in rock garden	.75	7.50
P. **frondosa**—Similar to farinosa, with rosy lilac blooms	.50	5.00
P. **involucrata**—Lovely in a damp, shady place; umbels of white, drooping flowers; 1 ft.	.75	7.50
P. **Japonica Hybrids**—A fine strain of this beautiful Primrose in shades of crimson	.75	7.50
P. **"Lissadell Hybrid"**—A cross between pulverulenta and Cockburniana. Very vigorous with flowers of a beautiful soft vermillion; 2 ft.	.75	7.50
P. **"Ailin Aroon"**—Another cross between pulverulenta and Cockburniana; flowers light scarlet	.75	7.50
P. **"Red Hugh"**—Intense fiery red. Very new and exceedingly choice	1.00	10.00
P. **Listers Hybrids**—Very new. Many beautiful shades of color	.75	7.50

	Each.	Doz.
P. **luteola**—Heads of pale yellow blossoms about six inches high. Robust plant and very attractive	.50	5.00
P. **Poissoni**—Very handsome Primrose from Northern China. Light foliage and flowers of a deep purple with a bright yellow center, in whorls. June and July; 2 ft	.75	7.50
P. **pulverulenta**—Rich crimson in color, in whorls, on stems 3 ft. high. One of the finest varieties	.50	5.00
P. **pulverulenta, "Mrs. Berkeley"**—A very beautiful form of pulverulenta, having pale, blush flowers with a saffron eye. Very choice; 3 ft	.75	7.50
P. **rosea**—A handsome species, native of Kashmir. Leaves bright pale green and flowers in early spring of a bright rosy carmine, with yellow center. Prefers moist, loamy soil in rockery or on banks of streams; 6 in. Fall delivery	.75	7.50
P. **Veitchii**—A Chinese species, producing numerous stems with heads of rose purple flowers; 1 ft	.50	5.00
P. **"Wilson's Blue"**—A fine novelty, producing many charming shades from deep violet to lavender	.50	5.00

PYRETHRUM—Persian Daisy

Hardy Perennial

A charming, old-fashioned flower which has been much improved during recent years by Kelway of England. They are invaluable both for cutting and for color effects in the hardy border. They are exceedingly easy of culture, asking only for well drained soil and plenty of sun. However, they amply repay generous feeding. We are pleased to be able to offer Kelway's strain of these lovely plants | $ .35 | $ 3.50

RAMONDIA—Pyrenaica

We take much pleasure in offering our patrons this very choice and interesting gem of the rock garden. The densely hairy leaves form a flat rosette, throwing scapes of exquisite violet blossoms with yellow centers.

They should be planted in a cleft of the rocks, so water cannot lodge in the crown, in a mixture of coarse sandy peat.

Well established plants	1.00	10.00

	Each.	Doz.

RUDBECKIA—Cone-Flower

Hardy Perennial

Fine plants for the hardy border and very easily grown.

R. **Newmannii**—Orange yellow flowers with black center, on stout, wiry stems; 2 ft. ..... $ .25 $ 2.50

R. **Purpurea (Giant Purple Cone-Flower)**—Rosy purple flowers on stiff stems, 3 to 4 feet high. Very effective ..... .30 3.00

R. **subtomentosa**—A densely branched plant about 2 ft. high, completely covered with a mass of brilliant yellow flowers with dark centers ..... .30 3.00

SALVIA—Meadow Sage

Hardy Perennial

S. **azurea grandiflora**—A most attractive plant for the border bearing exquisite pale blue spikes of flowers on stems 3 to 4 ft. tall. It prefers a rich, sandy loam in a sunny position ..... $ .25 $ 2.50

S. **Sclarea**—Strong growing plant with branching spikes of pale mauve flowers with reddish bracts. 4 ft. The old-fashioned "Clary" of which Miss Jekyell speaks so often. Biennial ..... .50 5.00

SAPONARIA—Soapwort

Hardy Perennial

S. **ocymoides**—Handsome plant of trailing growth bearing a profusion of pink blossoms in June. Fine for sandy soil ..... $ .25 $ 2.50

SAXIFRAGA—Dactyloides—Mossy Saxifrage

Hardy Perennial

The Mossy Saxifrages are ideal plants for amateurs. They form perfect little carpets of evergreen that quickly spread over the ground or cover the stones with beautiful, close-tufted verdure, which, in Spring and early Summer, become jeweled with little rounded blooms in pink, white or red. Most of them are easy to grow and ordinary, well-drained, loamy ground, with which pieces of grit or stone have been mixed, suits them admirably. They prefer half shade to full sun.

	Each.	Doz.
S. **decipiens Bathoniensis**—Grows nearly a foot high, with much branched stems, and large brilliant red flowers	$ .50	$ 5.00
S. **decipiens Blutentippich**—Scarlet flowers; 6 in.	.50	5.00
S. **decipiens Tapis Rouge**—Rose colored flowers; 4 in.	.50	5.00
S. **decipiens Guildford Seedling**—Small red flowers, compact grower	.50	5.00
S. **decipiens Red Admiral**—A handsome saxifrage, bearing an abundance of vivid crimson flowers	.50	5.00
S. **muscoides Magnifica**—Largest flowering of all. Flowers clear crimson	.50	5.00
S. **muscoides Rhei superba**—Deep rose colored flowers; 4 in.	.50	5.00
Saxifraga Splendens—(longifolia x Cotyledon)—One of the very choice hybrids of the encrusted section. It has more of the longifolia rosette and the looser inflorescence of the Cotyledon parent. A most attractive plant for the rock garden, the silvery edging of the leaves being most interesting. Plant in loamy soil, with plenty of grit; limestone, if possible. Top dress with coarse gravel	.75	7.50

SAXIFRAGA—Megasea

Hardy Perennial

A most effective class of plants having broad, deep green foliage which takes on most beautiful tints in the fall. They are perfectly hardy, their only demand being stones around the roots, which makes them very desirable for the rock garden. The flowers are borne on stout stems well above the foliage and are very handsome, ranging in color from palest pink to rose and purple. We are able to offer Smith's hybrids, which are the finest grown | .50 | $ 5.00

SCABIOSA—Blue Bonnet

Hardy Perennial

S. **caucasica**—Beautiful soft blue blossoms on long stems from June to August. Fine for cutting	$ .30	$ 3.00
S. c. **"Magnifica"**—New. Very beautiful variety of perfect form and substance. Exquisite shade of sparkling blue, the stamens tipped with pink	1.00	10.00

	Each.	Doz.
S. c. **"Rosamond"**—Almost identical with "Magnifica" except in color, being a true silver blue	1.00	10.00
S. **gigantea**—Very large sulphur yellow blossoms on sturdy stems three feet high	.50	5.00
S. **ochroleuca**—Sulphur flowers and finely cut foliage. Blooms in August and September. 6 ft	.75	7.50

SEDUM—Stone Crop

Hardy Perennial

The dwarf varieties are charming plants for sunny positions in the rockery, etc., and the taller kinds make effective color groups in the border. They thrive in almost any soil. They are especially fond of sand and full sun.

S. **album**—Foliage green. Small white flowers; 3 in	$ .25	$ 2.50
S. **anglicum**—A very choice variety of Sedum with delicate pink, feathery blossoms. It is reputed hard to grow but has been most rampant with us in a sandy soil and full sun. A gem for the rockery	.35	3.50
S. **dasyphyllum**—A rare variety from Southern Europe having fat, glaucous blue leaves set tight on their 3 inch stems. Slightly resembles S. anglicum but bluer. Flowers pink and very profuse	.50	5.00
S. **Ewersi**—Grey foliage and attractive growth. Rosy lilac flowers. Choice	.35	3.50
S. **kamtschaticum**—Foliage deep green, coarsely toothed, numerous yellow flowers in flat heads. 6 inches	.25	2.50
S. **Laggeri**—Attractive new species, with orange flowers	.25	2.50
S. **lydium**—Pink blossoms; bronzy green tufts	.25	2.50
S. **lydium glaucum**—Same growth, except that the foliage is a glaucous green	.35	3.50
S. **maximum**—Tall, robust species, foliage purplish, flowers salmon pink	.25	2.50
S. **monstrosum**—Yellow blossoms; 1 ft	.25	2.50
S. **oppositifolium**—Similar to S. spurium but the pinkish with blossoms are broader. Rockery	.35	3.50
S. **pilosum**—Choice and very rare variety, forming hairy green rosettes, and bearing clusters of pink flowers; 2 in	.75	7.50

	Each.	Doz.
S. **pulchellum**—One of the prettiest of the family, with trailing stems and bright red flowers, like a starfish; 5 inches	.50	5.00
S. **reflexum**—A variety with green leaves and yellow blossoms. 8 to 10 inches high	.35	3.50
S. **rupestre**—Prostrate grower with reddish stems and heads of brilliant golden flowers. 6 to 10 inches	.35	3.50
S. Selskianum—Heads of yellow blossoms in July. 18 inches	.25	2.50
S. **Sieboldii**—Handsome glaucous foliage and bright pink flowers in September	.25	2.50
S. **Sieboldii variegata**—Foliage edged white, making a very attractive plant. Rare	.40	4.00
S. **spathulatum**—Bright yellow flowers; grey rosettes; 6 inches	.25	2.50
S. **spurium**—Prostrate habit with heads of pinkish white flowers. 6 inches	.25	2.50
S. **spurium splendens**—Creeping habit with umbles of rosy pink flowers	.35	3.50
S. **stoloniferum**—Long, rooting stems, blunt leaves, scalloped at their edges, ending in heads of pink flowers	.35	3.50

SIDALCEA—Mallow-worts

Hardy Perennial

Fine border plants of robust growth and very free flowering. Easy to grow and splendid for cutting.

S. **candida**—Numerous white flowers in terminal spikes	.25	2.50
S. **Listeri**—Satiny rose pink flowers, narrowly fringed. Very distinct	.50	5.00
S. **malvaeflora**—Very showy variety with flowers of a rosy purple	.35	3.50
S. **oregana**—Deep rose pink blossoms	.35	3.50
S. **oregana "Rose Queen"**—Beautiful rose pink spikes of bloom. Choice	.50	5.00

	Each.	Doz.

SILENE—Catchfly

Hardy Perennial

A charming class of plants for the rock garden. They are closely allied to the pink family and require much the same treatment. They bloom nearly all summer and are very desirable additions to the rockery.

S. **alpestris**—A charming alpine plant with pure white blossoms on wiry stems from three to four inches high ..... $ .50 $ 5.00

S. **Asterias grandiflora**—A very showy variety with large heads of crimson scarlet blossoms on stems about three feet high. Good border plant ..... .25 2.50

S. **saxifraga**—A choice alpine of mossy growth. Flowers white, in great profusion ..... .50 5.00

S. **Schafta**—Very showy variety of tufted growth and covered with rosy purple flowers in July and August .... .25 2.50

STACHYS—Wound Wort

Hardy Perennial

S. **lantana**—Handsome silvery white foliage with stalks of bloom about a foot high, purple, borne in the axils of the leaves. Very valuable for color contrast in the border and especially handsome planted with pink Canterbury Bells ..... $ .35 $ 3.50

STATICE—Sea Pink

Hardy Perennial

S. **latifolia—Great Sea Lavander**—Fine for border. Branching sprays of bloom of a purple blue color. Fine for winter bouquets ..... $ .25 $ 2.50

S. **limonium**—Large, leathery leaves with sprays of bluish purple flowers. Very handsome ..... .35 3.50

S. **"Silver Cloud"**—Lovely plant for the hardy border. Branching stems with myriads of pearl white flowers. Very useful for winter bouquets ..... .35 3.50

S. **Bonduelli**—A very handsome annual variety of Statice with clear yellow blossoms ..... .20 2.00

	Each.	Doz.

STOKESIA—Stokes' Aster

Hardy Perennial

A handsome, vigorous plant, with heads of flowers about 1½ inches across, from July to September. Fine for cutting.

S. **cyanea**—Very handsome lavender blue flowers. Prefers full sun	$ .25	$ 2.50
S. **cyanea alba**—Pure white variety of the above	.25	2.50

THALICTRUM—Meadow-Rue

Hardy Perennial

The Meadow Rues are among the most beautiful plants in the garden. Their foliage is finely cut and closely resembles the Maiden Hair Fern, while the blossoms lend a light and fearthery grace to their surroundings. They are fine for cutting and the foliage is most useful mixed in boquets. They prefer a rich loam and rather moist position.

T. **adiantifolium**—Very beautiful with miniature white flowers through July	$ .30	$ 3.00
T. **aquilegifolium**—Feathered Columbine. Handsome foliage; sepals white, stamens purple	.30	3.00
T. **aquilegifolium atropurpureum**—Graceful foliage and masess of rosy purple flowers; 3 ft	.30	3.00
T. **Delavayi**—Bluish green foliage and lilac flowers with sulphur stamens	.40	4.00
T. **dipterocarpum**—A very distinct species, with flowers of a beautiful rosy lilac and long, lemon yellow stamens and anthers. The plant grows four to five feet high and is one of the gems of the garden	.50	5.00
T. **glaucum**—Finely cut foliage and pale yellow flowers in July and August	.30	3.00
T. **flexuosum**—Beautifully cut foliage	.30	3.00
T. **lucidum**—Long, narrow, finely cut foliage, with yellow flowers	.35	3.50
T. **minus**—Very dwarf with fern like foliage. True	.50	5.00
T. **nutans**—Lace-like foliage and yellow flowers	.50	5.00

	Each.	Doz.

THERMOPSIS—False Lupin

Hardy Perennial

T. **caroliana**—A showy plant for the hardy border, bearing long spikes of yellow, pea-like blooms in June. Very effective planted with Delphiniums..... $ .30 $ 3.00

THYMUS—Thyme

Hardy Perennial

T. **Serpyllum**—Very desirable creeping plant for the rockery. Foliage dense of a handsome dark green; clouds of delicate purple flowers..... $ .25 $ 2.50

TUNICA—Coat Flower

Hardy Perennial

T. **saxifraga**—Beautiful little prostrate rockery plant with rose colored flowers..... $ .25 $ 2.50

VALERIANA—Valerian

Hardy Perennial

One of the most popular of the old-fashioned garden flowers and of the easiest culture.

V. **officinalis (Garden Heliotrope)**—Very fragrant, pinky-lavender flowers in June..... $ .30 $ 3.00

VERBASCUM—Mullein

Hardy Perennial

Verbascums, commonly known as mulleins, have been greatly improved in recent years. We know of no plants more noble or picturesque than these newer varieties. Their pyramidal spikes, towering up among other border plants are just the flowers to give the whole border a light, graceful and most natural appearance.

Roots should be given a good, deep soil, but well drained and very sandy. When the stems are cut down in the fall cover the crowns well with ashes or sand. The crown may sometimes appear to be dead, but the roots are still alive and should not be disturbed.

V. **"A. M. Burnie"**—Branching spikes of rosy-fawn flowers; 4 ft..... $ .50 $ 5.00

	Each.	Doz.
V. **chaixii**—A fine border plant with long spikes of yellow flowers	.25	2.50
V. **chaixii album**—A beautiful white flowered counterpart of the above	.25	2.50
V. **giganteum**—(New.) A noble species with handsome silvery foliage and spikes of golden flowers; 10 ft.	.35	3.50
V. **Harkness' New Hybrid**—A handsome new mullein with woolly grey foliage and stout stems covered in late summer with very large yellow flowers	.25	2.50
V. **"Miss Willmott"**—Huge spikes of creamy white flowers and golden stamens. Beautiful; 10 ft.	.50	5.00
V. **nigrum**—Fine spikes of yellow flowers, with purple eye. Very handsome, and most effective planted with Larkspur	.35	3.50
V. **Olympicum**—Silvery leaves and much branched flower spikes, studded with yellow blossoms	.35	3.50
V. **phlomoides alba**—Dense spikes of white flowers, 5 feet high	.35	3.50
V. **phœniceum**—Very attractive border plant, of various shades, including white, pink, and violet, in graceful spikes; 2 ft.	.25	2.50

VERONICA—Speedwell

Hardy Perennial

V. **incana**—Silvery foliage with spikes of pale blue flowers. Valuable for both rock garden and border	$ .25	$ 2.50
V. **longifolia subsessilis**—One of the handsomest border plants we know. Grows about two feet tall and from July until frost is covered with long spikes of deep blue flowers	.35	3.50
V. **ochridea**—Very handsome variety from the Balkans. Grows four or five feet in height and produces a profusion of clear, blue flowers	.25	2.50
V. **rupestris**—A most charming rock plant forming thick masses of deep green foliage which is smothered in early spring with bright blue flowers—a gem for the rock garden, dry wall or for edging the border, if raised a little above the path, as its growth is absolutely prostrate	.50	5.00

	Each.	Doz.
Veronica repens—A very attractive variety for any warm place in good soil; sun or shade. Forms sheets of soft green, smothered the summer through with very pale blue heads of bloom	.25	2.50
V. **spicata**—A fine border plant, growing about two feet tall and in June producing long spikes of bright blue flowers	.25	2.50
V. **teucrium "Royal Blue"**—Very desirable variety for the rock garden as it is of trailing growth and covered with deep blue flowers in June	.35	3.50
V. **"True Blue"**—Very handsome variety with brilliant blue flowers late in summer; 1 ft	.25	2.50

VIOLA—Tufted Pansy

Hardy Perennial

The Viola is not as well known in America as it should be for it is perfectly hardy in well-drained soil and a most profuse bloomer from early Spring until Fall. It needs deep, well-enriched soil and considerable **sun,** with plenty of water. Ideal for carpeting rose beds. The colors are varied, as in Pansies, but much more refined and they need to be grown to be appreciated.

Do not allow to seed, as it will stop the bloom; early in September cut back all straggling growth, when the plant will make new tufts.

V.	**Ariel**—Mauve, beautifully shaded with white	$ .50	$ 5.00
V.	**Aurora**—Bluish purple. Immense bloomer	.50	5.00
V.	**Blanche**—Creamy white; very large	.50	5.00
V.	**Blue Gown**—Blue, tinted mauve	.50	5.00
V.	**Cecilia**—Creamy white, edged pink	.50	5.00
V.	**Councillor W. Waters**—Crimson purple	.50	5.00
V.	**Gen. Baden Powell**—Orange, very large	.50	5.00
V.	**James Pilling**—Pure white with lavender margin	.50	5.00
V.	**John Forbes**—Violet, shading to rich rose	.50	5.00
V.	**Kitty Bell**—Lavender. Very refined	.50	5.00
V.	**Maggie Mott**—Soft mauve, free flowering. Fine	.50	5.00
V.	**Moseley Perfection**—Deep yellow; large and grand	.50	5.00
V.	**Snowflake**—Snow white; very large	.50	5.00
V.	**Wm. Neil**—Rose. Very pleasing	.50	5.00
V.	**William Robb**—Lavender. Very free	.50	5.00

	Each.	Doz.
V. **Mixed**—A choice collection from seed saved from the above named varieties	.35	3.50

VIOLA CORNUTA—Horned Violet

Hardy Perennial

One of the parents of the tufted pansy and much grown as an edging for beds and borders. It is a Pyrenean species and of dwarf, tufted habit.

V. **cornuta—Admiration**—Soft purple, dark blotch	$ .25	$ 2.50
V. **cornuta—lutea splendens**—Rich golden yellow	.25	2.50
V. **cornuta—Mauve Queen**—Reddish violet. Very fine	.25	2.50
V **cornuta—Papila**—Violet with dark eye	.25	2.50
V. **cornuta—Blue Perfection**—Very deep blue	.25	2.50
V. **cornuta—White Perfection**—Lovely pure white	.25	2.50

VIOLA GRACILIS—Olympian Violet

Hardy Perennial

A lovely Grecian species on the order of the Violetta. Planted in masses in an open position on the rockery, they will rapidly cover the ground with dark green foliage that is covered throughout the most of the spring and summer with their dainty blossoms.

V. **"Alannah"**—Very new. Cross between bosniaca and cornuta. Flowers pink	.35	3.50
V. **gracilis**—Intensé violet flowers. **A fine rock plant**	.25	2.50
V. **gracilis "Purple Robe"**—Bloom from April to September. Very choice	.50	5.00
V. **gracilis "Lord Nelson"**—New. The most perpetual Viola in cultivation. Flowers of a glowing violet purple, erect, on long stems. Very desirable rock plant	.50	5.00
V. **bosniaca**—A perfect gem from Bosnia, with quantities of rose colored flowers. Resembles gracilis in habit	.50	5.00

	Each.	Doz.

WAHLENBERGIA—Tufted Harebell

Hardy Perennial

Beautiful, free flowering plants, especially suited to the rock garden. They are closely allied to the Bell-flowers and need about the same treatment.

W. **dalmatica**—Beautiful dwarf alpine, flowers deep violet. Rare ..... $ .50 $ 5.00

W. **graminifolia**—Long grassy foliage and pale blue flowers. Prefers ledge of rocks ..... .50 5.00

W. **Kitaibeli**—Tufted foliage and bright blue flowers ..... .50 5.00

W. **tasmanica**—Beautiful variety with bright blue flowers. Very new ..... .50 5.00

W. **vincæflora**—A native of Australia and New Zealand, this beautiful new perennial bears large blue flowers on stems from 9 to 12 inches high. The color is exquisite and it is a gem for the rock garden ..... .50 5.00

SHRUBS

Our list of shrubs comprises the best of our native as well as some other varieties and we shall add to our list the best of the novelties. Our stock is sturdy, well-rooted and is sure to thrive if given the proper care and attention after planting.

ALTHEA—Rose of Sharon

Very ornamental shrubs, useful for late flowering effects. Can be trimmed to bush or tree form.

A. **Double Pink** ..... $ .75 $ 7.50

A. **Double Purple** ..... .75 7.50

A. **Double Red** ..... .75 7.50

A. **Double White** ..... .75 7.50

ARALIA—Angelica Tree

A. **pentaphylla**—A pretty Japanese shrub of medium size. Spiny branches, leaves pale green ..... $ .60 $ 6.00

	Each.	Doz.

BERBERIS—Barberry

B. Thungbergii—**Japanese Barberry**—Dwarf habit, small foliage, changing to beautiful tints in the autumn. Very attractive scarlet fruit all winter. Fine for hedges ..... $ .50 $ 5.00

B. **Wilsoni**—One of the most ornamental shrubs of recent introduction. About the same height as B. Thungbergi but with foliage quite distinct. Leaves small, very lustrous, silvery beneath. Fruit very brilliant scarlet and very abundant 1.00 10.00

BUDDLEIA—Butterfly Bush

B. **Davidii—(syn. variabilis)**—New, very desirable. Blooms from July till frost, bearing panicles of lilac-colored flowers on stiff stems. Needs protection in this climate until well established; large, field grown plants; 8 ft ..... $ .50 $ 5.00

B. **Magnifica**—Very handsome, immense spikes of deep purple ..... .75 7.50

B. **Veitchiana**—More robust. Branches erect at first later arching. Bright mauve colored flowers, orange eye ..... .50 5.00

CALYCANTHUS—Carolina Allspice

C. floridus—**Sweet-Scented Shrub**—Foliage downy beneath. Flowers in May, very fragrant ..... $ .75 $ 7.50

CISTUS—Rock Rose

Hardy Perennial

Very showy plants for dry, sunny positions, loaded each morning during June and July with a fresh supply of rose-like blossoms, which only last for a day. Aromatic, velvety foliage.

C. **cyprius**—White flowers with a brown spot ..... .75 7.50

C. **cyprius creticus**—Large pink flowers ..... .75 7.50

C. **laurifolius**—Large white flowers. 4 ft ..... .75 7.50

	Each.	Doz.

CLETHRA—White Alder

C. alnifolia—**(Sweet Pepper Bush)**—One of our best fall flowering shrubs. Spikes of pure white flowers in July and August. Very fragrant ..... $ .75 $ 7.50

CORNUS—Dogwood

C. alba—**Red-Branched Dogwood**—Handsome, bright red bark in Winter; creamy white flowers in early Spring, followed by white fruit ..... $ .60 $ 6.00

C. **alba elegantissima**—A very handsome variegated variety, leaves broadly margined white; bark bright red in Spring 1.00 10.00

S. amomum—**Silky Dogwood**—Fine shrub with purple branches. Grows to a height of about ten feet. Fruit blue, sometimes partly white ..... .75 7.50

C. floridas—**Flowering Dogwood**—A beautiful tree, 20 to 30 feet high, with white flowers in April and May 1.50 15.00

C. **Florida rubra**—Very handsome pink blossoms. One of our choiceest flowering shrubs 2.50 25.00

C. Mas—**Cornelian Cherry**—A small tree with bright yellow flowers early in Spring, followed by red berries ..... .60 6.00

C. paniculata—**Panicled Dogwood**—Gray branches; flowers white. Very handsome in the fall with its white fruit on red peduncles ..... .60 6.00

CYTISUS—Broom

Very handsome, free flowering shrubs and much used for showy effects, especially in the rock garden. They flourish in a dry, sandy place and transplant best when young.

The varieties we offer are all perfectly hardy, going through our severe winter of 1917-1918 in the open field with no protection.

C. **albus—(White Broom)**—Fine species with white flowers borne in long racemes during Spring ..... .50 5.00

C. **albus "White Gem"**—A much improved variety of the White Broom ..... .75 7.50

	Each.	Doz.
C. **austriacus**—A twiggy shrub, two to four feet high, with numerous yellow blossoms in June	$ .75	$ 7.50
C. **capitatus**—Low growing shrub, about three feet, with hairy leaves and branches and blooming profusely in July and August. Yellow	.75	7.50
C. **laburnum—Golden Chain**—A tall, growing variety, almost tree like, with long racemes of yellow flowers in June	.50	5.00
C. **nigricans**—A downy shrub, growing from three to six feet high, with long erect spikes of yellow flowers in June	.50	5.00
C. **praecox**—One of the finest varieties and one of the first to blossom. A charming shrub, forming a solid mass of creamy yellow blossoms. 5-6 ft.	.75	7.50
C. **scoparius Magnificus**—Scotch Broom—Very hardy variety, growing to a height of 10 ft. and covered in May and June with its bright yellow blossoms	.75	7.50
C. **sessiliflorus**—Exceptionally fine. Flowers later than the other varieties and is fairly smothered with the golden yellow blossoms it carries	.75	7.50

DEUTZIA—Deutzia

D. crenata fl. pl.—**Double-Flowered Deutzia**—Flowers double white, tinged rose. Very handsome	$ .75	$ 7.50
D. gracilis—**Slender-Branched Deutzia**—A charming dwarf shrub with pure white flowers. Grows well in partial shade	.75	7.50
D. **Lemoinei**—One of the best. Flowers pure white, upright growth. Dwarf	.75	7.50

DIERVILLA—Weigela

D. **Abel Carrier**—Bright rose. Very choice	$ .75	$ 7.50
D. **Eva Rathke**—Very handsome. Flowers brilliant crimson; foliage dark green	.75	7.50
D. **rosea**—A fine shrub with rose-colored flowers in June	.75	7.50

	Each.	Doz.

ELÆAGNUS—Oleaster

E. **angustifolia**—Russian Olive—A rapid growing, tree-like shrub with willow-like leaves, greyish green above and silvery white beneath. Flowers in summer, yellow, followed by silver-grey fruits. Fine for poor, sandy soil ..... $ .75 $ 7.50

EUONYMUS—Spindle Tree

E. **europæa**—Forms a tree, sometimes 30 feet high. Small, greenish-white flowers in May, followed by bright pink fruits which open when ripe and reveal the orange-colored aril ..... $ .75 $ 7.50

EXOCHORDA—Pearl Bush

E. **grandiflora**—A fine shrub with large white flowers in May. One of the best of its season ..... $ .75 $ 7.50

FORSYTHIA—Golden Bell

M. **Fortunei**—Flowers bright golden. One of the earliest shrubs to bloom ..... $ .75 $ 7.50

F. **intermedia**—Slender, arching branches. Flowers bright golden, in early spring before the leaves appear. Very handsome ..... .75 7.50

HYDRANGEA

H. **arborescens grandiflora**—Hills of Snow—One of the most valuable shrubs, both on account of its attractive foliage and of its beautiful flowers which form large heads of snow-white bloom. Begins to bloom in June and lasts into August. Will also do well in partial shade $1.00 $10.00

H. **paniculate grandiflora**—A fine shrub, growing from six to eight feet high, with large panicles of white flowers, turning pink with age; strong plants 1.00 10.00

HYPERICUM—St. John's Wort

H. **olympicum**—Dense undershrub with erect stems and dark green leaves, whitish beneath. Flowers large, light yellow, about an inch across. Fruit berry-like, blackish violet, size of a pea. All parts very aromatic. Very choice ..... .75 7.50

	Each.	Doz.
H. **patulum Henryi**—Very showy shrub, growing from two to four feet high and producing masses of clear yellow blossoms in July and August	1.00	10.00

KERRIA—Corchorus

H. **japonica—Globe Flower**—A slender branched shrub with globular, yellow flowers from June to August. Very handsome	$ .75	$ 7.50
K. **janonica fl. pl.**—A double flowering form, very handsome. Scarce	1.00	10.00
K. **japonica variegata**—A silver foliaged variety of dwarf habit	.75	7.50

LIGUSTRUM—Privet

I. **amurense—Amur Privet**—A much hardier variety than the California Privet. Fine for hedges	$ .60	$ 6.00
L. **Ibota**—Choice hedge plant. Flowers white, large and very fragrant	.60	6.00
L. **Regelianum—Regel's Privet**—A handsome flowering shrub	.75	7.50

We do not list L. ovalifolium, (California Privet) as it is not hardy in this climate. The above varieties are perfectly hardy here and make just as desirable hedge plants.

Special prices on hedges.

LONICERA—Upright Honeysuckle

L. **bella albida**—White flowers, showy red fruit in abundance	$ .60	$ 6.00
L. **Ledebourii**—A distinct native variety, with red flowers in May. Rather dwarf	.60	6.00
L. **Morrowi**—A handsome Japanese Honeysuckle, covered during summer with showy red berries	.60	6.00
L. **tartarica rosea**—Rose-colored flowers in June, followed by red berries	.60	6.00

	Each.	Doz.
PHILADELPHUS—Mock-Orange		
P. coronarius—**Garland Syringa**—Pure white, highly-scented-flowers in early Spring	$ .75	$ 7.50
P. coronarius aureus—**Golden Syringa**—Medium size with golden yellow foliage. Keeps its color during the entire season	.75	7.50
P. **Lemoinei**—A beautiful hybrid with large white flowers in June. Very fragrant	.75	7.50
PERSICA—Peach		
P. **Double Crimson**—Very ornamental flowering trees with large, double rose colored blossoms	$2.50	$25.00
P. **Double White**—Same as above, only white	2.00	20.00
PRUNUS—Plum		
P. triloba—**Double-Flowered Plum**—Very handsome double flowers of a delicate pink, thickly set on long, slender branches, in May	$1.50	$15.00
P. **Pissardi**—Purple leaved variety—fine	2.00	20.00
PTELEA—Hop Tree		
P. **trifoliata**—Shrub or small tree with glossy, green foliage adorned in fall with clusters of very ornamental light green fruits. Plant in moist, well drained soil (porous) and partially shady position	$ .75	$ 7.50
RHODOTYPOS—White Kerria		
K. **kerrioides**—A fine Japanese shrub with handsome foliage and large, single white flowers the latter part of May; followed by black fruit	$ .60	$ 6.00
RHUS—Sumach		
R. **cotinus—Smoke Tree**—Hair-like, purple flowers, which gives the bush an appearance of mist. Attractive foliage	.75	7.50

	Each.	Doz.
R. glabra laciniata—**Cut-Leaf Sumach**—Very elegant, beautifully cut foliage, resembling fern leaves and turning to a rich red in autumn	1.25	12.50
R. **Osbecki**—A very distinct and handsome shrub from China and Japan. The leaf stalk is winged and in Autumn the foliage assumes beautiful tints of red and orange. Flowers in July and August in large clusters at the ends of the branches. The most ornamental of the Sumacs when in blossom. Very hardy	.75	7.50
R. typhina—**Stag-Horn Sumach**—A large shrub or tree, brilliant foliage and scarlet fruit in Autumn	.60	6.00

ROBINA—Locust

R. **Pseudacacia—Black Locust—Handsome**, native tree with thorny branches and pendulous, white flowers in spring. Very fragrant. Makes a splendid protective hedge	$1.25	$12.50

SAMBUCUS—Elder

S. nigra aurea—**Golden Elder**—A handsome, golden-leaved shrub. Very valuable	$ .60	$ 6.00
S. **nigra laciniata**—Handsome, cut-leaved variety	.60	6.00
S. racemosa—**Red-Berried Elder**—Panicles of white flowers in Spring, followed by red berries	.75	7.50

SPIRÆA—Meadow Sweet

S. **Billardii**—Rose-colored flowers, blooming nearly all summer	$ .75	$ 7.50
S. **Bumalda var. Anthony Waterer**—A fine dwarf spirea, bearing dark red flowers all summer	.75	7.50
S. **callosa**—White flowering, of dwarf, bushy habit; fine	.60	6.00
S. **callosa rubra**—Large panicles of deep rose-colored flowers all summer	.75	7.50
S. **opulifolia—Nine Bark Spirea**—A fine shrub, about five feet high, with white flowers in June	$ .75	$ 7.50
S. **opulifolia aurea—Golden Spirea**—A beautiful golden-leaved variety of the above	.75	7.50

	Each.	Doz.
S. **Thunbergii**—Dwarf habit and slender, drooping branches. Flowers small, white and appearing very early in the Spring	.75	7.50
S. **Van Houttei**—One of the finest of the Spireas. In May and June the plant is a mass of white flowers, presenting a beautiful appearance	.75	7.50
STEPHANANDRA Tanakae—Very handsome shrub with graceful foliage and loose panicles of small, white flowers. Foliage assumes gorgeous tints in the fall	.75	7.50

SYRINGA—Lilac

S. Josikea—**Hungarian Lilac**—A distinct species with dark, shining leaves and purple flowers in June, after the other varieties have done flowering	.75	7.50
S. Persica—**Persian Lilac**—Small foliage and bright purple flowers; 6 ft	.75	7.50
C. **Common Lilac**	.75	7.50
S. **Common White Lilac**	.75	7.50
S **Cashimir Perier**—Double white. Fine	1.50	15.00
S. **Chas. X.**—Single, reddish purple. Strong growing	1.00	10.00
S. **De Miribel**—Single violet	1.00	10.00
S. **Ludwig Spaeth**—Flowers large, dark purplish red. Single. Very distinct	1.00	10.00
S. **Marie Legraye**—Large panicles of single white flowers. One of the best	1.00	10.00
S. **Michael Buckner**—Pure lilac. Double. Beautiful	2.00	20.00
S. **Pres. Grevy**—Beautiful blue. Flowers very double and large	1.50	15.00
S. **Volcan**—Large, ruby red. Single	1.00	10.00

SYMPHORICARPUS—St. Peter's Wort

S. racemosa—**Snowberry**—A well-known shrub having small, pink flowers at the ends of the branches and followed by large, white berries that hang on the plant during the winter. Will grow under trees	$ .75	$ 7.50

	Each.	Doz.
S. vulgaris—**Indian Currant**—A shrub of good habit, with inconspicuous flowers and deep purple berries, which hang all winter. Excellent for growing in shade or under trees where other things will not grow	$ .75	$ 7.50

TAMARIX—Tamarisk

T. **Africana**—Slender, spreading branches. Flowers pink, along last year's branches. Blooms in May	$1.50	$15.00
T **hispida æstivalis**—Small, blue-green leaves and rosy-carmine flowers in fall	1.00	10.00

VIBURNUM—Arrow Root

V. **cassinoides**—A handsome shrub with yellowish-white flowers in flat cymes in June. Fruit handsome; rosy at first, changing to bluish black	.75	7.50
V. Lantana—**Wayfaring Tree**—A large, robust shrub with thick, heavy leaves and large clusters of white flowers in May. Fruit red, turning black. Very handsome	.75	7.50
V. Opulus—**Bush Cranberry**—Very ornamental, bearing red berries, resembling cranberries, until destroyed by frost	.75	7.50
V. **tomentosum**—The single form of the Japan Snowball. Flowers pure white, in flat cymes, early in June. One of the handsomest shrubs we have	1.00	10.00
V. var. plicatum—**Japan Snowball**—From China. Handsome plicated leaves, globular heads of pure white, neutral flowers early in June. Much finer than the common Snowball in every way	1.00	10.00

VINES

	Each.	Doz.
AMPELOPSIS		
A. Veitchii—**Boston Ivy**—Leaves small, overlapping one another, forming a dense sheet of green. It grows rapidly and clings closely to wall or trellis. The foliage assumes beautiful tints in the fall. Protect until well established—strong two year-old plants	$1.00	$10.00
A. quinquefolia—**Virginia Creeper**—Beautiful leaves that become a rich crimson in Autumn. A fine vine for covering walls, verandas or trunks of trees. Very hardy	.75	7.50
ARISTOLOCHIA—Birthwort		
A. Sipho—**Dutchman's Pipe**—A native of climbing habit and rapid growth. Magnificent, light green foliage and curious pipe-shaped, yellowish brown flowers	1.50	15.00
CLEMATIS—Virgin's Bower		
C. **Jackmanni**—Large, violet purple blossoms. Free grower and an abundant bloomer	$1.25	$12.50
C. **paniculata**—A most desirable and beautiful vine; grows luxuriantly, blooms profusely and is very graceful. Flowers pure white, very fragrant and produced in late summer, followed by ornamental seed pods	.75	7.50
EUONYMUS		
E. **radicans**—An evergreen vine that clings to walls after the manner of ivy	$ .50	$ 5.00
E. **radicans variegata**—A variegated variety of the above. Much used as edgings for beds and borders, by keeping closely cut	.75	7.50
LONICERA—Honeysuckle		
L. Halleana—**Hall's Honeysuckle**—A vigorous variety, with pure white flowers, changing to yellow. Very fragrant and the best variety	$ .60	$ 6.00

	Each.	Doz.

LYCIUM—Box Thorn

L. vulgare—**Matrimony Vine**—A very ornamental climber, of strong growth and bearing small, purplish flowers in summer, followed by scarlet berries ..... $ .60 $ 6.00

TECOMA—Trumpet Vine

T. **radicans**—A hardy, climbing plant with trumpet-shaped, scarlet flowers in August ..... .60 6.00

WISTARIA

W. sinensis—**Chinese Wistaria**—One of the most beautiful of all climbing plants. Has long, pendulous clusters of pale blue flowers in May and June $1.50 $15.00

W. **sinensis alba**—The white-flowered variety of the above. Beautiful 1.50 15.00

Plants Not Listed in Catalog

Wolcott Nurseries

Clinton Road

Jackson, Michigan

	Each	Per Doz.
ACAENA glauca—Beautiful carpeting plants with rose-like foliage of soft grey-blue	$0.35	$2.50
A. **Microphylla**—Charming foliage from rosy-bronze to grey-blue. Studded with little round balls of bloom, like a crimson hedge-hog	.50	3.50
A. **sanguisorba**—Less silky than the other varieties. Heads of bloom smaller, reddish purple	.50	3.50
ACHILLEA abrotanifolia—Grey foliage, almost downy. Large white flowers on stems of 6 inches. May-June	.50	3.50
A. **aizoon**—A beautiful Alpine, forming silvery rosettes of finely cut foliage covered with white daisies on 5-inch stems. May	.75	5.00
AETHIONEMA amoenum—Very attractive, with blue-grey foliage and large heads of light pink blossoms. May	.75	5.00
A. **Coridifolium**—Dwarf, bushy plant with bluish green foliage and dense heads of pink flowers. May	.75	5.00
A. **diatrophis**—Beautiful and very choice variety. Close, tufted growth and unusually large, deep pink blossoms. May	.75	7.50
ALLIUM cyaneum—A very pretty little bulbous plant for the rock garden in sun and light soil. Erect, slender stems about 8 inches high with nodding heads of bright blue bells. June	.75	5.00
ALSINE Bauhinorum—A most beautiful dwarf Alpine, forming mats of fine green foliage, bearing an abundance of pure white flowers on slender 8-inch stems in July and August	.75	5.00
A. **juniperifolia**—Lovely tufts of fine, grey green foliage and small white flowers in June	.50	3.50
A. **verna**—Forms mats of deep green, mossy foliage covered with white stars on 3-inch stems. June-September	.50	3.50
ALYSSUM creticum—Silvery foliage and golden blossoms covering the plant in early summer. Attains a height of about a foot and is somewhat shrubby in growth. June	.75	5.00

	Each	Per Doz.
A. **Moellendorfianum**—A most attractive variety from Bosnia. Very silvery foliage and heads of bright yellow flowers at the ends of the branches. June-August	.75	5.00
ANDROSACE arachnoidea—Neat, dwarf variety with silvery foliage. Large heads of pearl-white flowers on stems 2 or 3 inches high. Very choice. May-June	.75	7.50
A. **Brigantiaca**—A variety of A. carnea. Foliage smooth and deep green. Flowers pink, in ample heads on stems 2 or 3 inches high. April	.75	7.50
A. **Halleri**—An improved form of A. carnea, with smooth foliage and bright rose flowers. April	.75	7.50
A. **helvetica**—One of the best. Compact, silky rosettes of grey-green, covered in early spring with milk-white, stemless flowers with golden eye. Very choice. May	.75	7.50
A. **sempervivoides**—Lovely relative of A. sarmentosa, with smooth foliage and deep pink flowers on 2-inch stems. June-July	.75	7.50
A. **Vitaliana**—Unlike most other Androsaces. Forms a prostrate mass of dark green foliage, with flowers of clear gold. Very choice. April	.75	7.50
A. **Wulfeniana**—Very rare species from the Alps. Forms mats of bright green rosettes. Unusually large rose-colored blossoms on half-inch stems. Very choice and easily grown. April	.75	7.50
ANEMONE canadensis—Beautiful native variety. White blossoms on 12-inch stems. Fine for naturalizing	.35	2.50
A. **Halleri**—One of the Pulsatilla varieties but with foliage much less finely cut. Flowers rich violet on stems of 5 or 6 inches in early spring. April	.75	5.00
A. **montana**—Another Pulsatilla with dark green foliage and flowers of reddish purple, appearing before the snow leaves. March-April	.75	5.00

	Each	Per Doz.
